HOUSE RECEDES

The Democratic House Caucus This Morning Decided to Swallow the Senate Bill Without Change.

Separate Bills for Free Sugar, Free Iron and Free Coal Are to be Introduced.
Speaker Crisp and Chairman Wilson Said It Was the Senate Bill or No Legislation.

Bourke Cockran Made a Vigorous and Eloquent Speech Against House Surrendering to the Senate.

WASHINGTON, Aug. 13.—Long before 10 o'clock, the time set for the caucus, members began to arrive at the capitol and busy consultations were held on the course to be pursued. Speaker Crisp was joined in his private office by Chairman Wilson and Representatives Turner, McMillin and Montgomery, making the full membership of the house Democratic caucus committee. Representative Breckinridge, of Arkansas, an advisory member of the conference, was also present. It was a final consultation upon the line of action to present to the house caucus. The meeting lasted until it was time for the caucus to convene. In the meantime there was a scene of animation on the floor of the house. Representatives Tracy, Straus, Warner and others passed among their associates and stiffened up the sentiment of loyalty to the conference. It was apparently uphill work, however, as the present feeling among the rank and file of members seemed to be setting strongly in favor of accepting the senate bill without further delay.

At 10 o'clock Speaker Crisp and all the conferees were in the speaker's office and took seats in a body in the forward part of the Democratic side. There was an ominous silence as they came in. At that time no Democratic members were on the floor. As Mr. Wilson passed through the corridor of the house he was asked as to the result of the conference in the speaker's room. He answered: "I cannot make it known yet." Chairman Holman called the caucus to order promptly, and the call for the meeting was read. The roll call took time and the members appeared uneasy. Chairman Wilson took the floor immediately after the roll call and gave the conferees' statement of the question. He spoke passionately and received the closest attention. Members left their seats and crowded eagerly about him, listening intently to every word. It is seldom that such eager interest has been shown at a caucus. Mr. Wilson began with a recital of the difficulties that have been encountered. He went over each stage of the situation with much detail. He said that each step had been pursued with an ardent desire to support with honor the desires of the senate to resist what was regarded as the unreasonable demands of the senate.

Mr. Wilson did not confine himself to generalization. He took up the contested schedules, particularly sugar, coal and iron ore, and reviewed the differences in conference on each of these items. He took up each proposition on sugar and spoke of the vast profits in sugar trust which were the result of many of these propositions. He did not indulge in the sharp language that was expected.

While Mr. Wilson was speaking, the word was passed around among the conferees that the conference in the speaker's room had resulted in decisive action and that Speaker Crisp himself would move that the house recede and accept the senate bill. At first the information was so startling that it was doubted, but as member after member heard it and made inquiry, the opinion became general among the best informed men in the house that the report was correct, although it could not be positively verified by Speaker Crisp.

Mr. Wilson spoke of the fight made by the house conferees for a specific duty on sugar on the ground that under a valorem it would be impossible to secure the exact advantage which would accrue to the sugar trust. He made a remarkable statement that he had been credibly informed and believed that the sugar trust had anticipated the enactment of the senate sugar schedule, purchased \$112,000,000 worth of raw sugar. If this was true, he said, the profits accruing to the trust from this investment in advance of the enactment of the senate schedule would be at least \$40,000,000. Mr. Wilson also pointed out at length the embarrassment attending the efforts to adjust the coal and iron schedules.

"The great battle," said Mr. Wilson, warming up to his subject, "is between the American people and the sugar trust. That it is a battle in which the trust has the people by the throat and it will never end until we throw off the grip."

There was enthusiastic applause at this. He proceeded to state that the house conferees had been willing to concede almost everything except these vital items of sugar, iron and coal, that the senate conferees had also seemed willing to concede much and held much the same views, but were that they conceded what they, the representatives, were willing to concede, the bill could not pass and the agreement would be useless.

Mr. Wilson concluded by saying that he had now become satisfied it was either the senate bill or no legislation. Mr. Wilson closed at 11:10 o'clock, having talked just one hour. It was understood, however, that Mr. Wilson had not yielded the floor permanently, but would resume later his conference assertions. Mr. Montgomery had corroborated his statement as to dates.

Mr. Montgomery then took the floor

and substantiated Mr. Wilson's statements as to the details of the conference. Speaker Crisp followed Mr. Montgomery. He spoke with much spirit and earnestness and soon the caucus was in a tumult of enthusiasm, round after round of applause greeting his remarks. He spoke of the critical conditions and of the apparent need to accept the senate bill and then it need be introduced separate bills for free sugar, free iron and free coal.

Mr. Crisp followed in the line of Mr. Wilson saying that it was either the senate bill or nothing. He said that as long as there was a desperate chance of securing the concessions the house demanded, he was in favor of standing still, but he was now satisfied that the bill had come when further insistence by the house was useless. He closed his remarks by offering a resolution instructing the house conferees to recede from the disagreement to the senate amendments, and instructing the ways and means committee to bring in separate sugar, free iron and free coal bills.

A great burst of applause greeted the reading of the resolution, but half a dozen insistent Democrats were on their feet demanding recognition, prominent among them being Bourke Cockran. Owing to the lateness of the hour a rule was added that no further speeches be made. Then Mr. Cockran delivered a vigorous and eloquent speech against surrendering to the senate. "Better no tariff legislation," he said.

Mr. Cockran declared that there was no necessity for the house to surrender as yet and challenged Chairman Wilson to the resolution. Mr. Cockran said that the votes in the senate would be lost to the bill if the fight proceeded. He demanded the names of the four senators, but Mr. Wilson refused to give them. The previous question was demanded on the Crisp resolution and ordered by a vote of 112 to 21. Fifteen minutes were then given to the opponents of the resolution to state their position.

Mr. McMillin followed in vigorous style. He repudiated the statement made by Mr. Cockran that the senate bill was worse than the McKinley law. Mr. Robertson, of Louisiana, objected to the resolution on account of the free sugar provisions and generally protested against the treatment of Louisiana. As the hour of 12 o'clock, when the house was to meet, approached, the cry of "vote, vote," went up from the impatient members.

Mr. Robertson continued to urge that it would be had to cut off the Louisiana planters from the bounty on their year's crop on which they had reckoned when they put it in.

During the fifteen minutes' debate the chairman Wilson rose and pleaded with the caucus not to take action today. He said that whatever was the minds of the house there was no necessity for immediate and hurried action.

Mr. McMillin also made a speech. He also was in favor of the Crisp resolution. The Crisp resolution as adopted is as follows: Resolved, that it is the sense of this house that the order heretofore made requesting the senate to recede from its position on the disagreeing votes of the two houses on H. R. 481 be rescinded. That the conferees heretofore appointed on the part of the house be discharged from their duty in that behalf and that the house recede from its disagreement to the senate amendments to said bill and agree to same.

Resolved further, that the house shall at once proceed to the consideration of the following articles on the free list, viz: Sugar, all its forms; iron ore, coal and barbed wire. The committee on rules is requested to report an order providing for the prompt consideration of such motion and bills.

A division of the Crisp resolution was demanded as to having a separate vote on the first part to recede from disagreement to senate amendments and the provision for separate bills. The first part of the resolution was adopted by a vote, 130 to 21, and the second part without division.

Among those who voted against the first part of the resolution were the Louisiana members; Warner, Straus, and Tracey, of New York; Tarsney, of Missouri; Cockran, Covert, Dunphy, of New York; Cooner, of Indiana; Johnson, of Ohio; Kilgore, of Texas; the Maryland delegation; Raynor, McKaig, Rusk and Talbot; Breckinridge, of Arkansas; a number of the ways and means committee; Williams, of Mississippi. Most of those who voted against the senate amendments voted for the second part.

Representative Tucker, of Virginia, then offered a resolution thanking and commending the honorable conferees for their loyal service. This was adopted with a shout of approval, and the caucus adjourned.

STRUCK BY A CYCLONE.
North Madison, O., Visited by a Cyclone This Morning Which Did Large Amount of Damage.

GENEVA, O., Aug. 13.—A genuine cyclone struck North Madison early this morning, devastating forests, orchards, buildings, growing crops, etc. The wind struck in the path of the lake and swept a path 100 feet wide clear of everything. Heavy hail accompanied the wind and smashed thousands of windows. All crops in the path of the storm were utterly destroyed. The storm swept a path about 3 miles long. The loss will be heavy. So far as learned no person was seriously injured.

ACCIDENT IN A FOG.
One Man Fatally and Three Others Seriously Hurt.

BUFFALO, N. Y., Aug. 13.—Two engines backing in a fog today came together, with the result that one man was fatally and three others seriously injured. The accident occurred near the city limits, a Lehigh freight and a Buffalo Creek switch engine being wrecked. Tony Crankoski, whose injuries are probably fatal, and Anthony Sreski, whose leg is crushed, were standing on the freight train. Nick Fisher, car repairer, and Engineer George Pitts were seriously injured.

THE FINAL VOTE

It Will be Taken in the House on the Tariff Bill About 6 O'Clock Tonight.

A Special Rule for a Resolution Receding From Disagreement From the Senate Amendments Adopted.

Several Democrats Did Not Vote Either Way, and Tom Johnson and Warner Voted Nay.

Good Authority for Saying the President Will Neither Sign or Veto the Senate Bill.

WASHINGTON, Aug. 13.—When the house met five minutes after the Democratic caucus adjourned, there were more members on the floor than at any time since the tariff bill was passed. The anxious public thronged the corridors before the doors were thrown open and crowded into the galleries in anticipation of the final scene in the long tariff battle. The greatest confusion existed on the floor. Members were standing about in excited groups discussing the situation, the general understanding being that resolutions to agree to the senate amendments and prohibition to consider the bills for free coal, iron, sugar and barbed wire would be brought in this afternoon.

Under the rules, Mr. Heard, chairman of the committee on the District of Columbia, pending action by the committee on rules, claimed the day for the consideration of business reported by the committee on the District of Columbia. For almost two hours the committee on rules awaited the coming of Mr. Outwater. His appearance at 2 o'clock caused a flurry on the floor. At 2:20 the meeting of the committee on rules ended and Mr. Catlings immediately entered the hall with the special order in his hand. Mr. Heard yielded the floor to him and Mr. Catlings presented the rule.

The special order provided first that immediately after the adoption of the order it would be in order to consider a resolution discharging the house conferees on the tariff bill from the further duty of considering that measure, and that the house recede from its disagreement to the senate amendments to the bill and agree to them, and that it shall be in order at any time thereafter to consider bills for free coal, free iron, free sugar and free barbed wire. The resolution allowed two hours for debate on the tariff resolution.

During the reading of the resolution there were jeers by the Republicans, Mr. Burrows calling out "silly, silly," when that part of the rule relative to free coal, etc., was read. Mr. Catlings demanded the previous question but Mr. Reed arose to a point of order and the battle began.

That the tariff bill was not in possession of the house and that therefore the action proposed in the report could not be taken.

He maintained that in case of an agreement of conferees on a bill either house could act on a report, but in case of disagreement the report went back to the body first requesting the conference. The bill could not be in possession of both houses at the same time, neither could either house act except on papers before it. The papers could not be in possession of both houses at the same time. It is a parliamentary as well as a physical fact that the papers could only be in one place at one time.

The house has no report on the bill, Mr. Reed said, and the senate had repudiated its bill. Both were ashamed of their offspring. (Republican applause.) Yet the house was now proposing to pass the senate before it could be repudiated by that body. Such a spectacle, he declared, had never before been witnessed.

The speaker overruled the point of order and the previous question was then ordered without division. This allowed fifteen minutes' discussion on each side, and Mr. Reed took the floor and made a very sarcastic speech.

"You are going to give the country free sugar," said he, in his most ironical strain, amid shouts of Republican laughter. "In your minds," he added, amid renewed shouts of derision, "and free coal and free iron ore. You are going to be bold and manly, as you have been in this back down, without a reference to the committee that stands before you and the noble purpose that thrills you."

Representative Turner, of Georgia, replied to Mr. Reed and was greeted with applause by the Democrats. He said the gentleman from Maine had built up a parliamentary system which now reared against him.

The special rule was adopted, 176 to 97. Eleven Democrats answered present, not voting either way. Tom Johnson, of Ohio, and Warner, of New York, voted nay.

The passage of the senate bill should occur about 6 o'clock this evening. There is unquestionably good authority for the statement that the president will neither sign nor veto the senate tariff bill, but will let it become a law without his signature under the ten day's provision of the constitution.

BALDWIN NOT SATISFIED.
He Wants Free Iron Ore, Coal and Barbed Wire.

WASHINGTON, Aug. 13.—[Special to The Herald.]—Representative Baldwin had this to say about the tariff situation: "I have been opposed to the senate bill from the first. I believe had the house given such support to the conferees as they were entitled to, it would have been a surrender of the senate rather than the house, but the house from the first has

been wavering and has never taken a decided stand, and the condition has been such that the senate conferees might reasonably assume that the house would surrender.

"Under the conditions as explained by conferees in today's caucus, I am convinced that we had arrived at a point where it was the senate bill or no bill. I shall therefore vote for the senate bill. I am for further tariff legislation. I would fight the sugar trust until my eyes would no longer wag, and this legislation will extend as well to iron ore, coal and barbed wire."

MINNESOTA SCHOOL LANDS.

Partial Answer by Acting Commissioner Bowers to Davis' Resolution.
WASHINGTON, Aug. 13.—[Special to The Herald.]—Acting Land Commissioner Bowers today submitted a report to the senate in answer to Senator Davis' resolution for the correspondence between the land office and the officials of the Minnesota relating to school lands in the Chippewa and other Minnesota Indian reservations.

He also enclosed a letter from the secretary of the interior to Charles McIlraith, land commissioner of Minnesota in 1870, rejecting the claim of Minnesota to school lands in sections 16 and 36, and admitting the right to other lands in lieu, so far as the Lake Pepin and Sioux reservations are concerned, but denying any right in the Winnebago reservation. Mr. Bowers states that to furnish everything asked for in the resolution will require several months and he requests the senate not to insist upon having all the correspondence asked for in the resolutions.

BANK FAILURE IN KANSAS.

The Oldest Institution in the Southwest Has Suspended.

WICHITA, Kan., Aug. 13.—The Wichita National bank, the oldest banking institution in the Southwest, went into the hands of the controller of the currency today. The last report, made in July, showed only \$26,000 in specie on hand. It is said the bank has out considerable bad paper. The county commissioners have \$14,000 in the bank. The deposits amounted to about \$260,000. The capital stock and surplus aggregated \$300,000. President M. W. Levi is in Kansas City, having gone there last night to see if arrangements could be made to tide over the trouble. The closing of the bank this morning told the story of his failure to secure help.

"Irresponsible people have been attacking the stability of the institution for three weeks, and there has been a constant and heavy draw on us during that time. The county commissioners among others listened to the stories afloat and checked out \$46,000 without giving us any notice. I believe the suspension is only temporary, and even if the bank is closed for good, we can pay all our debts if we collect 35 cents on the dollar of what is due us."

The excitement about town is very great, but it is believed that all the other banks are prepared to protect themselves.

PULLMAN EMPLOYEES RETURN.

Hundreds Went Back to Their Old Positions Today.

CHICAGO, Aug. 13.—The Pullman company's big plants at Pullman were besieged this morning by a host of the striking employees, who came seeking work and who signified their willingness to go back to their old positions. At 9 o'clock the general foreman closed the gates and let the men back until the full quota of men needed is at work. The full number of men is but 2000, the officials of the company feel certain that it will not be long before the works will be resuming full blast again. Among those who returned were 200 Swedes, skilled workmen.

THE REPORT UNFOUNDED.

The Story of Another Naval Fight Between China and Japan.

SHANGHAI, Aug. 13.—Up to the present there has been no confirmation of the reported engagement between the Chinese and Pei-Yang squadron and a Japanese fleet.

The Chinese fleet seems to have disappeared from the coast and its whereabouts is a mystery. Report has it that Chinese war vessels may shortly be heard from off the coast of Japan.

The Mosquito Trouble.

NEW YORK, Aug. 13.—Senator Modesta Barrios, Nicaraguan minister to England, was a passenger by the Pacific mail steamer City of Paris, which arrived from Colon today. Senator Barrios had heard no news from his country since July 29. When questioned as to his mission to England he stated that he had full power to settle the Mosquito trouble between England and Nicaragua.

Four People Drowned.

MARINE CITY, Mich., Aug. 13.—Word reaches here of a drowning accident in Sydenham near Thornhurst, Ont., yesterday in which four young people lost their lives, the names of the dead are: Miss Heywood, of Wallaceburg, Ont., Mr. Johnson, Miss L. Winters, Miss J. Winters. No one saw the accident and it is not known just how it occurred.

Gold Bullion Receipts.

HELENA, Mont., Aug. 13.—The receipts of gold bullion at the United States assay office at Helena during the past week amounted to \$120,887.71. This is the largest week's business in the history of the office, not only in a number of bars melted and assayed, 130 being handled.

A Serious Charge.

MINNEAPOLIS, Aug. 13.—A special to the Journal from Waseca says: George Abernathy, a traveling man, has been brought back here under arrest charged with blowing up the Grant house barn with dynamite a week or two ago.

The contract price is \$2770.35. This is the largest contract of this kind ever let in this city. The fixtures will be made after drawings by the government designer and will be very handsome.

The birth of a son to William S. and Frances Storer, Grand avenue, has been reported to the board of health. Jennie Caroline Olson, aged 1 year and 2 months, 2130 West Second street, cholera infantum; Arthur A. Wicklund, aged 3 months, Thirtieth street west, cholera infantum. The final decree in the case of Ossian Enstrom vs. steamer City of Naples was filed in the United States court here today. The plaintiff is awarded \$2000.

Marriage licenses have been issued to Peter Osberg and Amanda Westman, and J. B. O'Donnell and Celia Schmitt-diel.

E. F. Barto will have charge of the office work of the Hammond Packing company when it opens for business here, which will be in a very short time. J. S. Holtbrook will be the local manager.

A national movement is on foot among the colored people to raise funds for a monument to John Brown. A club was organized recently in the case of William C. Oliver, who formerly lived in Duluth, was found dead in the water at White Bear Lake on Saturday. He was in the employ of the St. Paul & Duluth road for eighteen years and left to join the Missabe road. Afterward he removed to St. Paul.

IS MAKING BIG MONEY.

Little American Mine is Turning Out Gold at a Lively Rate.

U. M. Thomas came down from Rainy Lake City yesterday. He brings glowing reports of the progress there and especially at the Little American mine. On Thursday last gold to the amount of \$2390 was turned out. The daily expense of operating is only \$100, clearing \$1390 profit. "Zek" Kendall evidently exhibited a "long head" when he bought all the outstanding stock.

A visitor to the Rainy Lake gold region just returned says that everyone there is getting down to active work. Heretofore prospectors have spent their time looking up favorable locations for claims. Now the majority of them are settling down, having located their claims, and are going more into development. Of course there is a lack of funds, but the gold bricks put out by the mines in operation are having a good effect and capital is being attracted to the region.

Five different companies and individuals on the American Canadian mines are arranging to put in stamp mills on their properties.

THE COURT FILINGS.

Judge Ensign Grants a Stay in Williston, Charnley & Co. vs. Mathews.

Judge Ensign this morning granted a stay of ten days in the case of Williston, Charnley & Co. against Mathews & Kretsch and the Duluth & Iron Range, a lien claim for the building of the Two Harbors ore dock in which judgment was entered in favor of the plaintiff at the last term of court.

The stay was granted to allow the defendants' attorney to obtain his clients' wishes regarding an appeal.

The St. Louis Day Land company has petitioned the court to open judgment in the tax proceeding brought against it. The claim is made that the matter was inadvertently overlooked by the officers of the company at the time of the trial, and they wish to put in a defense.

W. E. Richardson has filed promissory note suits against E. W. Barnes et al for \$476.82 and against F. F. Huntress et al for \$651.26.

The Municipal Court.

In police court this morning John Edel, Chris Erickson and Peter Antti pleaded guilty to a charge of drunkenness. Judge White suspended sentence in each case and sent the trio away rejoicing. Mary Faulkner pleaded not guilty to the charge of disturbing the peace. She put up \$20 bail until the afternoon session of court. A complaint has been made against Joe Orckovsky by the police. He is charged with the charge of drunkenness. He is charged with the charge of disturbing the peace. He is charged with the charge of disturbing the peace.

BEARS ARE NUMEROUS

Several of Them Have Been Killed in the City Limits, One Being Shot Yesterday.

Forest Fires Have Driven the Animals Inside the City Limits to Find Feeding Grounds.

Large Number of Idle Laboring Men Are Leaving the City Greatly Reducing the Number.

Yesterday some hunters with dogs treed a bear back of Lester Park. They called upon Assistant Attorney Benham who went out with his gun and laid bruin low in death. Six bears were seen in that vicinity yesterday and nine are known to have been killed along Lester river this season. It is thought that about twenty-five of the black fellows are now within the city limits. The fire in back have destroyed the animals' feeding grounds and the odors from the camps of picknickers draw them right into the city limits.

A gentleman upon the boulevard recently looking up the hillside in the distance saw a young black bear among a lot of cows. The bear was dancing on his hind feet and cavorting around in a most comical manner.

Saturday, down on Minnesota Point, the carcass of a black bear washed ashore from the lake. The next thing some young lady down there will get hugged to death. A bear is also reported as being shot the other day while cavorting among the groves in Forest Hill cemetery. A gentleman this morning said that he thought it was about time for a stone wall to be built around that burying ground.

NUMBER IS DECREASING.

Fewer Idle Men Are to Be Seen on the Streets Now.

A decrease is noticeable in the number of unemployed laborers about Duluth. The decrease is scarcely heavy enough to bull the labor market, but it cannot fail to have an effect favorable to the laborers who are left.

Most of those who have gone are of the floating population class, while those who are left are in a large degree men of families who depend upon steady work in the city for their support. All last week an average of 100 a day were shipped the by employment agencies to the wheat fields of North Dakota and Minnesota, where the harvest is now in operation, and many are still being shipped.

The Cook Went Crazy.

Jerry Lawson, who cooks for the Kitchi Gammi club has lost reason and became violent this morning. Some time ago he joined the Temperance league and became an earnest member. Finally he began to expound Populist theories with many high oratorical flourishes in the basement of the club with the four walls as an audience. This morning he would allow no one except the pastry cook to approach him and when Steward Haley came near him he brandished a big carving knife and ordered him to keep his distance. The patrol wagon was sent for and he was removed to the police station.

Probably Not Important.

The regular meeting of the council comes off this evening. At noon the prospect for an important session were poor, but then a prophet even cannot tell what the Duluth city council will stir up on ten minutes' notice. For one thing, though, it is expected that Alderman Lerch will read some figures on the cost of feeding the fire department horses that will knock silly those prepared by Fred Lewis and read by Alderman Cox some weeks ago.

May Not Be Insane.

Melchor Von Kotz, a Swiss, was brought before Court Commissioner McAdam, who is hearing insanity cases in the absence of Probate Judge Ayer, to be examined as to his sanity this morning. The hearing was adjourned to Wednesday to await developments in his case, as it was not certain whether or not he was insane.

Sol Klein's Mind Affected.

Sol Klein has been suffering for some days from a form of dementia and became quite violent yesterday. He was placed under watch at the Hotel Brunswick and today is greatly improved. He will go away on a trip in the hope of helping his mind.

Catarrh Cannot be Cured.

With local applications, as they cannot reach the seat of the disease, Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials, free.

LAKE FREIGHTS STEADY.

They Are at a Stand Still But Firm—Coal Movement is Increasing.

No change is reported in lake freights and rates. The coal movement is steadily increasing, and will continue strong through the remainder of the season. Coal in and lumber out seems to be the principal business doing. The movement of lumber has been heavy during the past few days, but the rate has not increased from \$1.62 1/2. The coal rate is firm at 40 cents. Wheat and ore are dull at the old rates of 1 1/2 cents and 60 cents.

The Harvey H. Brown, a handsome, new steel propeller, is in with coal at the Ohio dock.

The steamer L. W. Nicholas was launched at the yard of the Cleveland and Shipbuilding company Saturday afternoon. She is an exact duplicate of the Alva, of the Bradley fleet, and will be ready for business early in September. She belongs to the Minch estate.

Coal charters are reported as follows: Belle P. Cross, Board of Trade, 117, 123, Siberia, Ohio, ports to Duluth at 40 cents.

The dredges in Chicago have been in the habit of dumping in the river and harbor. Steps are being taken to stop the practice.

The Monohansett and Capt. Davidson's new boat, Grampian, are expected in to load lumber at Mitchell, Minn., and the Grampian on her last trip broke the lumber carrying record.

WEST DULUTH ITEMS

Considerable Complaint is Entered Against the Proposed Removal of Judge Himebaugh to the Duluth Courts.

Many Citizens Do Not Understand Why the West Duluth Prisoners Cannot Be Tried There.

It is Claimed That the Present System is Too Expensive—Other News of Interest.

The effort to virtually abolish the West Duluth municipal court by calling on Judge Himebaugh to assist at Court No. 1 is meeting with considerable criticism at this end of the city. "I don't understand," said a prominent citizen this morning, "the practicability of totting all the West Duluth prisoners to Duluth for trial and then chasing the judge after them when we have here a court established by law, a clerk and all the paraphernalia of a justice business. It may be more convenient to a few Duluth attorneys to transact the legal work near their offices but it is much less convenient to 8,000 people of West Duluth whose rights, in a paramount manner, are being trampled. It is also much more expensive to the city at large in many ways. For instance yesterday a man and his wife were arrested and taken to Court No. 1 for trial. Four witnesses were subpoenaed on the case whose fees will include mileage to the city proper. The transportation of prisoners is also a costly item whether they are taken by street car or by a team and driver. The court has been established here by law and cannot at present be abolished at least technically and I don't see why the machinery cannot be used in accordance with the legislative enactment."

WHEAT ADVANCED ONE CENT.

After a Week Start, the Market Firmed and Closed Higher.

Wheat made a week start today, the first trading being in December at 74 1/2, a decline of 1/2 cent from yesterday's close. The depression was due to the large receipts of wheat at Chicago, and the early weakness in corn also helped to lower the wheat market.

There was a quick recovery, and an hour later the first trading in September was done at 56 1/2, which was 1/2 cent above yesterday's close. After the hour there were buyers of September at 55 1/2 and sellers at 55 1/2, without trading. The balance of the day was in sympathy with the strength in New York and without trading. The balance of the day was in sympathy with the strength in New York and without trading.

The market ruled steadily at the opening figures to the afternoon, when it showed a slight decline. During the last hour and closed at 55 1/2, a decline of 1/2 cent from yesterday's close. The market was very dull all day, business being mostly in September, when it was almost entirely neglected. Cash wheat was in good demand at 35 1/2, and September for new wheat at 35 1/2, and 25 1/2 for old wheat. There were few trades. Following were the closing prices:

No. 1 hard, cash 50 1/2; August 50 1/2; No. 1 northern, cash 50 1/2; August 50 1/2; September 50 1/2; December 50 1/2; No. 2 northern, cash 49 1/2; August 49 1/2; September 49 1/2; December 49 1/2; No. 3 northern, cash 48 1/2; The Weather.

U. S. WEATHER BUREAU, DULUTH, MINN.,
Aug. 14.—The barometer is relatively low from
Michigan, southward to Kansas and has been
rising rapidly over Minnesota, the Dakotas and
Northern Missouri, with much cooler north-
westerly winds and light to moderate rains. In
other reporting districts generally the tempera-
ture is slightly lower than on previous dates.
General showers are reported in Wisconsin,
Iowa and the northern part of Illinois, Min-
nesota and Upper Michigan.
State of water at St. Mary's Falls still about
at 5.5 ft. today, 15 ft. in forest for next
thirty-four hours, stationary.
Duluth temperature at 7 a. m. today, 59 de-
grees; maximum yesterday, 53 degrees; min-
imum yesterday, 25 degrees. Rainfall for ten-
day period ending 8 a. m. today, 0.47 in.

DULUTH, Aug. 14.—Local forecast for North-
west Minnesota and Northwest Wisconsin for
today and Wednesday: Light rains, followed
by generally fair tonight and Wednesday; cool-
er today and continued cool Wednesday; fresh
to brisk northeast and north winds.

WASHINGTON, Aug. 14.—Forecast till 9 p. m. to-
morrow for Minnesota: Showers, followed
by fair Wednesday; cooler Wednesday morn-
ing; northerly winds. For Wisconsin: Rain
today and tonight; fair Wednesday; cooler
Wednesday night.

Seize the Opportunity.

There have been many visitors to
Duluth during the present summer.
There will be many more before the
summer months have passed. For the
presence of many of these visitors Du-
luth must give the credit to the new
steamship, the North West, which, owing
to the enterprise of President Hill, has
provided a comfortable and even luxu-
rious mode of traveling over the beau-
tiful lake route between Duluth and Bu-
falo. The visitors who have come here
and looked over the city, inspected the
many improvements that are going on,
studied the realty values, and watched
the immense business being done in the
shipment of iron ore, lumber, wheat and
merchandise, have been most favorably
impressed with the existing conditions
and the future prospects of Duluth.
Many of them have made investments
or perfected arrangements for making
investments here. They have returned
to their homes in the East and South
chanting the praises of Duluth and pro-
phesying a brilliant future for this city.
All this means much for Duluth. It
will result in both immediate and future
benefits, of which the residents of the
city should be prepared to take full ad-
vantage. The fact is that we who live in
Duluth hardly realize the splendid posi-
tion which this city occupies today in
comparison with the other cities of the
country. The financial and commercial
depression was felt less here than at any
other point in the country. It has dis-
appeared to a greater extent than in other
sections. There is more actual business
being done in Duluth today, in propor-
tion to the population, than in any other
city in the country. These facts should
cause the people to bestir themselves
and to realize the opportunities that are
presented. There are probably 500,000
people in the country today who are
prepared to leave their present places
of residence and remove to a better
place where they believe they can bet-
ter their condition. If their attention
could be drawn to Duluth and the pres-
ent good condition of the city and its
unequalled prospects of growth in the
immediate future could be presented to
them, the greater number of those 500,
000 people would be added to the popu-
lation of this city within three or four
years.

The population of Denver increased
at the rate of 25,000 a year for several
years, yet Denver never had the natural
advantages which Duluth possesses.
All the silver and gold mines of Colo-
rado are not to be compared for one mo-
ment with the great traffic that is passing
and must continue to pass in in-
creasing volume through the port of
Duluth. Look at the great country to the
west and northwest of this city that
is being rapidly developed. Duluth is
the gateway to this country. It is the
point from which the thousands of set-
tlers who are now taking up land must
draw their supplies. Think of the great
iron ranges back of this city, with their
millions of tons of the richest ore in
sight, which can be transported success-
fully with the output of any other range
in the world. This in itself will create a
steadily increasing business that will
add to Duluth's growth and prosperity
in every material way. The lumber
business here is but in its infancy, and
yet it has reached proportions
that place Duluth in the lead of the
lumber shipments. These are but a few
of the factors that make Duluth and will
continuously push Duluth forward in its
advance to commercial greatness.

The people who visit the city see these
great influences at work, and with clear
vision they perceive the great future that
is in store for Duluth. The people now
here can by united action and by ne-
glecting no opportunity to present these
facts to their friends, acquaintances and
correspondents in the East do much to
hasten that future. Open your eyes,
look around you and then act!

The Chinese Treaty.

The treaty with China which was rat-
ified by the action of the senate yester-
day prohibits the coming of Chinese la-
borers to the United States for the next
ten years, except upon conditions speci-
fied. The restriction is not to apply to
the return of such laborers as have law-
ful wives, children or parents in this
country, or who have property here of
the value of \$500 or debts equal to that
amount due them.

The departing Chinaman is to secure
before leaving a certificate from the col-
lector of customs of the district from
which he leaves, to the fact that he has
deposited with the collector a description
of his family, property or credits, and
this certificate is to entitle him to return
to the United States. In case the de-
scription proves to be false, the right to
return is to be forfeited. It is to be ex-
ercised within one year, but in excep-
tional cases may be extended for another
year.

It is especially agreed that the propo-
sition of this convention shall not affect
the right of Chinese subjects being offi-
cials, teachers, students, merchants, or
travelers, for curiosity or pleasure, but
not laborers, of coming to the United
States and residing therein. To entitle
such Chinese subjects to admission, they
must produce a certificate from their own
government or the government where they
last resided, the diplomatic or consular
representative of the United States in
the country or port whence they de-
parted.

It is also agreed that Chinese labor-
ers shall continue to enjoy the privilege
of transit across the territory of the
United States in the course of their
journey to or from other countries, sub-
ject to such regulations by the govern-
ment of the United States as may be
necessary to prevent said privilege of
transit being abused. The secretary also
guarantees to Chinese residents of the
United States all the protection afforded
to citizens of the most favored nations,
except the right to become naturalized
citizens.

The Chinese government waives all
objection to the requirement of the
United States laws that Chinese resi-
dents shall be registered, and reciprocally
this government consents that
Americans residing in China. While
the treaty is made for a period of only
ten years, it is provided that it may be
extended for another like term of years
unless either country shall give notice
six months before the expiration of the
ten year limitation of a desire to termi-
nate it.

The treaty now requires the ratifica-
tion of China, but it is presumed that
the minister at Washington is fully empow-
ered by his government to act for it in
this matter, and it is expected that the
ratifications will be exchanged in a few
days.

Although several Pacific coast sen-
ators worked energetically to prevent
the confirmation of this treaty by the
senate, and twenty senators voted
against it at yesterday's executive ses-
sion, there does not appear to be any
reasonable objection to its provisions.

Give Them Work.
The return to work at Pullman yester-
day of hundreds of strikers practically
put an end to the long-continued and
bitterly fought strike at the Pullman
works. It is gratifying to notice that
the men who are ready and willing to work
and that no discrimination is being
practiced against those who took a prom-
inent part in the struggle. All are being
given their old positions and no com-
plaints are being made in that respect.
This action of the Pullman company is
in marked contrast with the policy
pursued by many of the railroads, which
have barred from future employment
their old employees who joined in the
Pullman boycott and strike. This is a
mistaken policy on the part of the rail-
road companies—one that does not
do them any credit and
which will not prove profitable. Had as
been the attitude of the Pullman
company in refusing to arbitrate its dif-
ferences with its workmen, it will be
placed in a much more favorable light
than the railway companies by giving
employment to all its old workmen who
apply.

The railroads should abandon such a

narrow-minded and foolish policy. They
should remember that the majority of
the strikers simply obeyed the orders of
their leaders when they quit work and
that they were orderly and peaceable.
No discrimination should be exercised
against these men when applying for
work.

"Workmen," says Senator Ed-
munds, "my advice to you is to preserve
your individuality, your right to act as
your reason and judgment dictate. Don't
let others think for you. Study the con-
stitution. Learn its grandeur and justice.
Then prosperity and happiness will be
yours." This is good advice, and it will
apply to every citizen of this country.
Capitalists, business men and profes-
sional men as well as workmen.

The only English newspaper that
sneers at George Gould and the vigilance
is owned and edited by an American,
who purchased it as a means for break-
ing into English society. And to the
credit of English society, he said that
he has not made much headway in this
direction.

The St. Louis Star Sayings predicts
that the next Republican congressmen will
be elected in Missouri this year. This
may prove to be correct, but "counting
chickens before they are hatched" is not
always a sure game.

By the new tariff law, the tax on whisky
will be increased from 90 cents to \$1.50 a
gallon. This shows rare self-sacrifice on
the part of congress, which is one of the
largest consumers of that beverage.

Summer in India.
One cattle feeder says the yoke they bear—
The earth is heavy and the skies are brass—
And faint with fever of the flaming air—
The laundries hang from the trees.

The well is dry beneath the village tree—
The young wheat withers ere it reach a span.
And the birds of the air are scarce and few—
Where once the river ran.
Pray, brothers, pray, but to no earthly king—
Lift up your hands above the blighted land.
Look westward—if they please, the Gods shall
bring
Their mercy with the rain.

Look westward—bears the blue brown cloud—
Nay, it is written—wherefore should we
On?—
Lies down, lie down to die.
—Rudyard Kipling.

Following Carnot's Death.

Illustrated. The congregation of a
Carnot's assassination has been followed
by a whole crop of tragedies. One man
died of grief; the Belgian minister in
Paris swooned at the news, too; his wife
and never rose again; a woman
threw herself out of a window, and many
suicides in France are attributed to the
same impulse. A boy was accidentally
stabbed to death by a schoolmaster, who
was showing how Cæsar struck the
blow. Fatal accidents, indeed, were
plentiful.

GROVER WILL NOT SIGN IT.

SHILL Opposed to Affixing His Signature to the
Tariff Bill.

WASHINGTON, Aug. 14.—As the house
of representatives last night adjourned
over until Wednesday the tariff bill can-
not be sent to the White House until to-
morrow. It will be enrolled and care-
fully compared today, and tomorrow
when both houses are in session it will
receive the signatures of Speaker Crisp
and Vice President Stevenson.

The bill then will be taken to the president,
who will have ten days, exclusive
of Sundays, or until Monday, the 27th, in
which to act on the bill. A great
deal of pressure will be brought to
bear on the president by Democratic
senators and representatives to induce
Mr. Cleveland to sign the bill, but the
authoritative statement made by the As-
sociated Press yesterday that it is the
present intention of the president to let
the bill become a law without his signature
can be reiterated today.

It is stated by friends of the president
that he has freely expressed his pur-
pose to those entitled to know who have
questioned him on the subject, but has
said that he will thoroughly consider all
phases of the matter. A member of his
cabinet said that if the president should
change his present inclination not to
sign the bill, it would be accompanied by a statement, in explanation
of his reasons therefor.

The Grocers as Well as Labor Unions Em-
 ploy the Boycott to Enforce Their
 Demands.

A. R. Arundell & Co. Came Under the Ban
 for Selling Some Fruit to a
 Boat.

This Action Served to Settle a Disputed
 Point and the Boycott Was After-
 ward Withdrawn.

The Grocers' union at the meeting last
 night declared a boycott upon A. R.
 Arundell & Co., wholesale commission
 merchants. There is an ironclad treaty
 of peace between the wholesale and re-
 tail organizations, one clause of which
 prevents the former from supplying any
 of the consumers. It is on the ground
 that this clause has been violated that
 the boycott was declared.

Saturday one Peterson called at Arun-
 dell & Co.'s place and purchased a lot of
 fruit consisting of several boxes of pears,
 a bunch of bananas and some plums. He
 paid for the goods and ordered them
 sent to the steamer Lucile. A receipted
 bill was given him, and he immediately
 dashed it under the nose of his grocer,
 saying that he could buy as cheap as the
 grocer could.

The matter was taken up at the meet-
 ing last night, and the boycott declared.
 The secretary was instructed to call up
 on the firm and ask an explanation. This
 morning the commission house of A. R.
 Arundell & Co. was as quiet as a grave-
 yard. The retail grocers were doing
 their buying elsewhere.

The grocers claim that the right to sell
 to boats is reserved to them, although no
 special mention was made of that item
 in the agreement. They say the boats
 are included under the head "and other
 consumers."

The commission house admitted that
 it was wrong, but said that the man who
 made the sale was "unaware of it at the
 time, as he supposed that the wholesalers
 were allowed to sell to boats."

The trouble is not a serious one. Both
 sides are godfathers about it, and the
 result will merely be a settlement of the
 question of selling to boats. It was ar-
 ranged during the day, the whole-
 sale's explanation being satisfactory and
 the boycott was withdrawn.

 will, undoubtedly, cause the Superior
 aldermen to reach for the chip on the
 shoulders of the city fathers over here.

One provision is that the
 mayors of the two cities, assisted by

Committee Appointed to Get the Selling Fig-
 ure of the Water System.

The joint water works committee met
 this morning. President Howard asked
 to be relieved from serving as chairman
 because of the press of private business.

Judge Hall was chosen to take the position.
 The committee is working actively.

At this morning's meeting a committee
 consisting of Messrs. Hall, Getty and
 Burrows was appointed to ascertain at
 what price the company will sell its
 plant to the city.

Two Phenomenal Child Artists.
 Miss Sadie Dorsell and Mattie Norcott,
 age 12 and 11 years respectively, and
 claimed to be two of the most remarkable
 child singers ever before the public, will
 appear at the Pavilion next week, com-
 mencing at the Sunday matinee. They
 have been in Chicago, where they have
 been studied for about one and a half years,
 and have appeared at a number of con-
 certs, always exciting wonder and ad-
 miration. During the engagement of
 Abbey & Gra's grand opera, they sang
 privately for Calve and Melba, who were
 so delighted with their singing that they
 sent a letter of thanks and congratula-
 tion to their teacher, Mme. Petrelli.

When Mme. Petrelli's company appeared
 in Chicago, the members of her company
 heard them sing, and all united in say-
 ing that they never heard two more re-
 markable child artists. These little ones
 are really fully developed prima donnas,
 with a repertoire from all the grand
 operas.

A Half Inch of Rain.
 One-half inch of rain fell last night
 and there was rejoicing in the land for
 the rainfall was general over the North-
 west. With it came a decided fall in
 temperature. At Winnipeg this morn-
 ing the thermometer stood 44 degrees,
 at Prince Albert 36 degrees and at Du-
 luth, 58 degrees. The weather bureau
 predicts a clearing off tonight and warm-
 er weather tomorrow.

Cataract Cannot be Cured
 With local applications, they cannot reach
 the seat of the disease. Cataract is a blood
 or constitutional disease, and in order to cure it
 you must take internal remedies. Hall's
 Cataract Cure is taken internally and acts di-
 rectly on the blood and mucous surface. Hall's
 Cataract Cure is not a quick medicine. It was
 powerfully one of the best medicines in the
 country for years, and is a regular prescrip-
 tion. It is composed of the best tonics known,
 combined with the best blood purifiers, acting
 directly on the mucous surface. The perfect
 combination of the two ingredients is what
 produces such wonderful results in curing
 cataract. Send for descriptive circular free.

CONDEMNATION SUITS.

Missabe Road Has Begun Several Suits for
 Right-of-Way.

The Duluth, Missabe & Northern rail-
 road has commenced two suits in the dis-
 trict court for the purpose of condemn-
 ing lands for extensions on its lines.
 One is against George A. Elder et al.,
 and the land is in 57-18. The extension
 will be known as the Adams branch,
 running northerly three miles from the
 Duluth branch, with three spurs to be
 known as the St. Clair, McInnis and
 Helmer spurs. Thirty seven parcels of
 land amounting in all to 72.456 acres are
 asked for.

The second suit is against John S.
 Pillsbury et al. for an extension of the
 Superior branch, running from section 6
 57-20 in St. Louis county, to section 23-
 57-22 in Itasca county, a distance of nine
 miles and 473 feet. There are fifty-five
 parcels of land amounting to 110.64
 acres.

The court is asked to appoint com-
 missioners to make the surveys.
 Judge Lewis has filed his findings in
 the case of William C. Riley against
 Emil Schmidt, which came up last
 March. Riley is the owner of the news-
 vending privileges on the Duluth short
 lines. He sued Schmidt for \$500 on a
 sublease from September, 1892, to Oc-
 tober, 1893, at \$40 a month. Judge Lewis
 finds judgment for Riley for \$624.31, in-
 cluding interest.

Frank G. Valen, a shoe dealer doing
 business at No. 5 East Superior street,
 filed a voluntary assignment yesterday
 afternoon to John I. Ekland.
 He has given mortgages to the
 Iron Range Brewing company of Tower,
 has reported to the court the sale of the
 brewery to Frank Pabst, of West Superi-
 or, for \$350.

SUES THE VILLAGE.

Montana Woman Wants Twenty Thousand
 Dollars From Sauk Rapids.

Kate Lavis has brought suit in the
 United States circuit court to recover
 \$20,500 from the village of Sauk Rapids,
 Minn. She lives in Miles City,
 Mont. She alleges that in August, 1893,
 she was driving along the main street of
 Sauk Rapids with her three children.
 When near a partially washed out cul-
 vert the horse shied at a street car and
 she was thrown out and into the hole in
 the embankment. In the bottom was
 some stone and on this she fell, break-
 ing her right shoulder and crushing and
 bruising her back. As a result she claims
 to have lost all sense of hearing in one
 of her ears and that her nervous system
 is permanently shattered. For this she
 has expended \$20,000. She claims that
 the village is liable because the culvert
 was not in repair.

Transferred the Suits.

The Missouri, Kansas and Texas
 Trust company has transferred the cases
 against which have been instituted in
 the district court to the United States
 court and transcripts were filed yester-
 day afternoon. The plaintiffs in the dif-
 ferent cases are Emma Norris, Theo-
 dore M. and Louis Krueger, and John
 L. and Emeline Post. These actions
 were begun shortly after the decision in
 the McLachlan case against the same
 defendant. He has given mortgages to
 the company and alleged usury. The
 court sustained the claim. The company
 loaned money, taking for the payment
 notes payable in monthly installments
 and drawn for a much larger amount
 than the loan. The borrowers also con-
 tracted to carry life insurance. The
 plaintiffs in these cases made the same
 allegations.

The Municipal Court.
 In police court this morning Judge
 Winje presided. John Sullivan, drunk,
 was sent up for ten days. Kate O'Con-
 nell pleaded not guilty to the charge of
 drunkenness. John O'Connell said that
 he had not been disorderly as charged.
 Her trials were set for the afternoon
 session. J. W. Wilkey charged with
 using a potato measure that had not
 been sealed by the city sealer of weights
 and measures, pleaded not guilty, and
 his trial was set for Aug. 15.

Will Discharge Frank Hogan.
 Frank Hogan says he is not re-
 signed his position as assistant court
 officer. His resignation was asked, but
 he declined to comply, hence on Sept. 1
 he will be discharged. Frank says he
 mayor told him, when approached in the
 matter, that the only charge against him
 was that he was a single man and a Democrat.

Now the Printers Will Rejoice.
 The postoffice department has decided
 to discontinue on and after Sept. 30
 the printing of special request envelopes.
 This has been brought about by the op-
 position of the printers of the United
 States, who have claimed the govern-
 ment was doing work that rightfully be-
 longed to them. In this city the banks
 and board of trade firms buy them in
 10,000 and 20,000 lots.

His Mind is Clear Today.
 Jeremiah Lawson, the owner of the
 Kitchi Gamm club was examined before
 Court Commissioner McAdam in probate
 court this morning. He was found to be
 sane, the trouble of yesterday being
 merely a temporary aberration resulting
 from hard work and brooding over finan-
 cial difficulties.

Finished the Work.
 The board of equalization finished its
 work yesterday afternoon and adjourned.
 The totals and the basis of assessment
 will be announced in about two months,
 when the necessary returns are in and
 after the state auditor has gone over the
 rolls.

RATE COMES DOWN.
 Package Freight Rate is Again at 15 Cents
 Per Hundred.

As a result of the disagreement of the
 lake and rail traffic managers, the pack-
 age freight rate from Duluth to Buffalo
 has been lowered from 17½ cents to 15
 cents. Considerable competition was
 expected by some, but thus far no rate
 war has resulted. The package freight
 business is brisk and picking up.

Coal freights are still very firm. In
 Buffalo yesterday tonnage was scarce,
 as most of the boats were going to Ohio
 ports. In Cleveland the other hand,
 there was too much tonnage to allow an
 advance in rates, which brokers are still
 trying to bring about.

The strike leaders have lost consider-
 able of the rank and file and the men
 have announced their willingness to work
 at any wages. The Pullman officials
 have intimated that strikers who return
 to work will not be pushed for overdue
 rent.

This afternoon Assistant Manager Par-
 ent gave the total number of men at work
 as over 2000. The foundry started up
 today for the first time. One hundred
 men, all ex-strikers, were put to work
 and 200 more foundrymen were refused
 employment.

MURDERED ON A TRAIN.
 A Colored Man Slashed With a Razor and
 Shot.

PITTSBURGH, Aug. 14.—James Douglass,
 colored, was shot and killed on a Balti-
 more & Ohio train near Gastonville last
 evening. The Pittsburgh and Chicago
 Gas coal company sent two carloads of
 negroes from Pittsburgh to take the places
 of strikers at its mines.

On the road a quarrel arose and Doug-
 lass was cut several times with a razor.
 Finally one of the assassins shot Doug-
 lass in the abdomen, killing him. The
 murderers jumped from the train and
 escaped.

FULL OF FIGHT.

The Indiana Democrats Began Their Annual State Convention With the Largest Attendance Yet Known.

A Great Deal of Enthusiasm Was Manifested and the Delegates Were Confident of Victory.

The Permanent Chairman of the Gathering Was Governor Claude Matthews Who Spoke at Length.

He Warned So-Called Democrats Who Oppose Tariff Reform of a Day of Reckoning.

INDIANAPOLIS, Ind., Aug. 15.—The largest convention in the history of the Democratic party in Indiana convened at 10 o'clock in Tomlinson hall this morning. There were 1747 accredited delegates seated on the main floor. Although the weather was intensely warm, the great hall was filled with spectators who fanned themselves into a state of comparative comfort. The hall was elaborately decorated with bunting and flags.

The only pictures to be seen were those of Governor Claude Matthews, of Indiana, President Cleveland and the late Thomas Hendricks. They were all steel engravings, and the president's which was the largest of the three, hung immediately above the presiding officer's head. The large flag which was wrapped around the Hendricks monument at its unveiling hung from the center of the hall. The State band, located in the rear gallery, played on the slightest provocation and kept the audience in an enthusiastic mood until the convention got down to business.

Chairman Taggart, of the state central committee, called the convention to order and introduced Governor Matthews, the permanent chairman, who was received with loud cheers. Governor Matthews spoke as follows:

"Once again a great party assembles in convention to deliberate upon those questions that concern the welfare of a people and the good of the government, and to make an appeal to the public for a renewal of its support and confidence. It is gratifying to see so many gathered together here, and to see the life. It gives hopeful signs of coming success. Surely the gloomy forebodings and presages of defeat heralded by the opposite parties have but little effect. We are met under peculiar conditions, still fighting the battle of the people, to relieve them from the burdens of tax and a system of taxation created one generation ago through the necessities of war burdens, placed under the promise that soon as peace was restored 'relief' should be given."

"A party for over thirty years was carrying on the policy which was enriching the few at the expense of the many, heaping up fabulous wealth in thousands of cases and sapping the strength and resources of all others to maintain it, butting its head against the wall, and finally, after a long and costly struggle, it was overthrown. The administration of government until it was impoverished the millions to pay tribute to the privileged few. The people at last revolted, and for the first time since 1873 placed all departments of the government in the hands of the Democratic party to free them from these evils and reform the injustice of the past. We came into possession of the government, but with a depleted and empty treasury, made so by the recklessness and profligacy of Republican administration."

"Not alone was this our inheritance, but crippled and embarrassed by the entanglements of extravagant appropriations, reaching beyond the close of the year, we can control of public affairs, and forcing upon their successors the passage of deficiency bills and issuance of bonds to maintain the credit and honor of the government. These strained and unnatural conditions resulting from their ruinous policy, deceptive teachings and juggling with the financial and public debt statements of the country, introduced by Mr. Harrison's secretary of the treasury, could not but sooner or later seriously affect the prosperity of the people."

"The results have been witnessed in the widespread financial and commercial depression that swept over the country. Great national banks have toppled and failed, burying, too often in disgrace, officials of those institutions in the ruins. Forced and unnatural prosperity of commercial and manufacturing enterprises could not meet the day of reckoning. And now we see a once great party trying to escape public condemnation for their mischievous policy, and still deceiving a long-suffering people by charging these results to the access to power of the Democratic party."

"In assuming control of the government no party ever encountered such tremendous difficulties as met the Democratic party, and no greater struggle to fulfill the promises and redeem the pledges it had made in its declaration of principles of 1872. One by one these pledges are being redeemed through the heroic efforts of our representatives in congress. The intiquously law has fallen beneath our sturdy blows the promise to repeal the silver purchasing clause of the Sherman act has been fulfilled, and the belief enacted into law that no special or privileged class of property shall escape its just share of the burden of tax even the holders of the hoarded and sacred greenback of national currency. The struggle must be brave and earnest, for the heretofore opposition is to be encountered all along the line."

"Siege has been laid to the stronghold of Republicanism—its protective tariff and the day of a broad commercial freedom is surely dawning upon us. Step by step we fight our way, camping on every vantage ground, until

GROVER HAS IT.

The Senate Tariff Bill Delivered at the White House at One O'Clock This Afternoon.

Second Reading of Free Coal, Iron, Barbed Wire and Sugar Bills in the Senate.

Letter from Secretary Carlisle Upon the Effect of the Bills Upon the Government Revenue.

Jones Offers an Amendment Imposing a Flat Duty of Thirty Per Cent on all Sugar.

WASHINGTON, Aug. 15.—During the presentation of memorials and petitions in the senate at 12:12 o'clock today, Chief Clerk Knowles appeared at the main door with the tariff bill. The members of the senate listened attentively while Chief Knowles read the resolution which signified the senate's triumph over the house in the tariff struggle, but there was no demonstration of any kind. The speaker's signature to the bill was announced at the same time. Then the vice president appended his name. Representative Pearson, chairman of the house committee on enrolled bills, left at 1 p. m. for the White House carrying the tariff bill which he put in the president's possession at 1:15 p. m.

In the senate, Mr. Harris asked for the second reading of the house revenue bill. No objection being made, the bill to place coal, iron ore and barbed wire on the free list was read. Mr. Harris then had read a letter just received from Secretary Carlisle concerning the effect of the bills upon the government revenues.

Mr. Barry called up the free sugar bill. Mr. Harris, while favoring free sugar, thought this and the other bills should be referred to the finance committee. The senate could not adjourn without providing for the threatened deficiency of \$28,000,000 or \$30,000,000 which might result from the passage of this bill.

Mr. Barry insisted that the senate should decide the matter and not bury it in committee. He said the senate had been charged with being a friend of the sugar trust. He said the bill to pass exactly as it came from the house. Mr. Harris said an early report would be made by the committee.

At this point Mr. Cockrell presented a conference report upon the general deficiency appropriation bill. The only point in dispute was \$1,800,000 for southern Pacific claims to which the house would not agree. He moved that the senate insist upon this point. Mr. Sherman moved that the senate recede from its position and agree to the bill. Mr. Cockrell presented the conference report on the sundry civil appropriation bill. The only point in dispute was the striking out of an appropriation for the victims of the Ford's theater disaster. The report was agreed to.

Mr. Vest resumed his speech on Mr. Harris' motion to refer the free sugar and other bills to the finance committee. He said it meant the death of the bills, as the committee was not politically a tie, with the possibility of the disappearance of a quorum within a few days. Messrs. Mills and Vilas followed.

Senator Jones of Arkansas, offered an amendment to the bill imposing a flat 30 per cent duty on all sugars, raw and refined.

A motion by Mr. Dolph to go into executive session and thus cut off the discussion of the sugar question was regarded as a test vote. It was lost.

WOULD CAUSE A DEFICIENCY.
Secretary Carlisle Says the House Bills Would Cut Off Big Revenue.

WASHINGTON, Aug. 15.—Secretary Carlisle has written a letter to Senator Harris, acting chairman of the finance committee, which will be read during the day.

The letter of Secretary Carlisle reviews the condition of the treasury and the estimated revenues of the government for the next fiscal year. The figures show that under the tariff bill just sent to the president the revenues would exceed the expenditures for the fiscal year ending June 30, 1895, \$15,000,000. The revenues from the sugar duty Mr. Carlisle placed at \$13,000,000, and from coal, iron ore and barbed wire \$1,000,000. If the house bills were passed there would, Mr. Carlisle said, be a deficiency next year of \$29,000,000.

COKEY NEARLY MOBBED.
Five of His Dupes Became Incensed and Attacked Him.

BALTIMORE, Md., Aug. 15.—A special to the Sun from Hyattsville, Md., says: Gen. Cokey came near being mobbed at Camp Lost Liberty yesterday. He came for the purpose of taking away seven of his horses, and when questioned about the movement of his men became angry and said he was alone with the scheme. This greatly incensed the five men left by the Baltimore police to take care of the camp valuables, and Cokey was obliged to beat a hasty retreat on one of the horses. The other horses were driven around back roads and in this way he got possession of them. The men gave chase to Cokey but he escaped.

To Retire His Goods.
New York, Aug. 15.—It was announced this afternoon that the whiskey trust would take \$5,000,000 and retire its goods from bond before the new tariff bill goes into effect.

SERIOUS DEFECT FOUND.

Loophole in the Tariff Bill That Would Cause Heavy Loss.

WASHINGTON, Aug. 15.—Internal Revenue Commissioner Miller was at the capitol today seeing Mr. Wilson concerning what promises to be an unfortunate complication in the collection of the new revenue tax on alcohol, unless the same is rectified. While in the senate an amendment was inserted in the tariff bill making alcohol free from tax when used in the arts, in medical prescriptions or in other like compounds. "Roughly estimated," said Mr. Miller, "this would reduce the revenues about \$8,000,000 or \$10,000,000 annually. The department has always been against such procedure. We already allow colleges, laboratories, etc., to use their alcohol free of tax. But this provision as to alcohol used in arts and in medicine and in like compounds threatens to throw the doors wide open. The provision as to medicine would exempt all bitters and it would be necessary merely to put a little bitters or a dash of Jamaica ginger in a barrel of whiskey to let it escape all revenue taxes. It is hard to say what the ramifications of such a system would lead to, not only in the wholesale handling of alcohol, but that of retailers and druggists."

Chairman Wilson has been commissioned by the ways and means committee to overcome the trouble. It would have been rectified in conference if the conferees had not broken up without results. Mr. Wilson's bill will be given a special rule to bring it to a speedy reading, and it is expected the change will be completed so far as the house is concerned without trouble.

THE MISSOURI REPUBLICANS.
Maj. Warner is Temporary Chairman of the State Convention.

EXCELSIOR SPRINGS, Mo., Aug. 15.—The Republican state convention convened at noon. The hall, which was profusely decorated, was packed. There were 940 delegates present. With a few introductory remarks Chairman Bothwell presented Maj. Warner, of Kansas City, as temporary chairman.

Maj. Warner made an enthusiastic speech blaming the Democrats for the present state of the country, and predicting a Republican victory in the November and the redemption of Missouri from the Democracy. He declared that they would be the next speaker of the house of representatives and that the next president of the United States will be a Republican.

What the people, intelligent American policy on financial and tariff legislation. Stability, and not change, is what they want. The only hope for a revival of business is in the restoration of the Republican party.

Col. Waters will be permanent chairman of the convention. Col. Kemp, of St. Louis, will introduce a strong resolution denouncing the A. P. A. and declaring that no such secret organization shall have the countenance of the Republican party.

Killed His Wife.
KALAMAZOO, Mich., Aug. 15.—Frank Proctous, of Portage township, shot and instantly killed his wife at 3:30 o'clock this morning. Mrs. Proctous had arisen to close a window. Her husband, mistaking her for a burglar fired the fatal shot.

A PRETTY GOOD SNAP

Some Convincing Light Thrown on the Query "Does it Pay to Be an Alderman?"

Alderman Lerch Finds it a Material Assistance in the Conduct of His Livery Business.

Four Hundred Dollars from the City in Five Months—Other Liverymen Get Almost Nothing.

Some live questions of concern to the dear people have been flashed across the municipal sky like fiery meteors since Duluth's "reform council" took its seat in the windy month of March. "How much exposure to the winter air can a small, pale, and thin man stand and give up the ghost?" first agitated the public mind and loosened the tongues of municipal orators. Right on the heels of that, neck and neck with it, in fact, came the city ownership of the water works system. The admission of reporters into the secret Monday afternoon sessions of the all-wise city fathers held the boards for a few rounds. "How much does it cost a month to board the fire department horses?" was the next question to agitate the municipal atmosphere. Figures were chased down, facts hunted up, statements made, proven and then disproven. Black eyes and bloody noses were in prospect at each meeting of the council for a month, and the joke of it all was that the fire department horses kept on swallowing and chewing food, utterly oblivious of the tempest that their innocent stomachs had kicked up.

One subject leads to another. Testimony on the horse feed question developed the fact that several men in the council are experts on other matters than horses and horse feed. The natural question is, "Does it pay to be an alderman?" By light reflected from the fire department horse feed agitation, the council is inclined to believe that it at least pays several of the city fathers a fairly good percentage on what they spent in securing an election.

One of the aldermen to offer valuable testimony on the horse feed problem was R. S. Lerch, the servant of the people from the bloody Third ward. On the question, "Does it pay to be an alderman?" The Herald first offers in evidence the silent testimony of bills presented by Alderman Lerch to the city for livery services rendered.

While Alderman Lerch has been a Duluth liveryman for some time, up to March 1, he was a plain, private citizen. As such, his buggy wheels did not turn any of the service of the city than those of any other Duluth liveryman. In fact, he was quite a plain citizen, his city patronage was quite evenly distributed among all the liverymen in the city.

That municipal reform should come, Alderman Lerch, enthusiastic reformer that he is, commenced operations for the livery business. He then could see that things were done economically enough so that the treasury would not lack funds to meet his bills in his monopoly of the city's livery.

HAD JURISDICTION.
Judge decides the seizure of the Lindrup to have been legal.

Shortly after the seizure of the tug Lindrup the legality of it was contested by the owner, the question being argued before Judge Williams at St. Paul. It was held that the tug was in the jurisdiction of the Minnesota court.

Judge Williams has filed his decision and he holds that by act of congress, approved Feb. 26, 1857, the United States district court of Minnesota has jurisdiction over any vessel on Lake Superior.

OH, THE BABIES!

175 Died in Boston in a Week.

CHOLERA INFANTUM IS RAGING NOW.

Lactated Food Should be Fed to Little Ones.

Every Mistake in Diet Must Be Avoided.

The death rate goes up with a jump. There were almost a hundred cases of mortality due to cholera infantum alone in Boston during last week, says the Herald of that city.

One hundred and seventy-five babies died from this and similar causes.

The fearful jump in the infant death rate that comes in August is due to improper feeding during hot weather.

In thousands of homes where love and watchfulness seem to have surrounded baby with every safeguard, these two conditions that lead to cholera infantum often exist—improper diet and possibility of contagion in food.

These causes are preventable, and every death from an intestinal disorder shows either neglect or ignorance on the part of parents.

There is no reason today why baby should not receive proper nourishment and be kept absolutely free from any possibility of contagion.

The experience of hundreds of physicians and mothers who have brought up a family of children know nutritious food easily digested, and who have seen their babies grow up healthy and strong, is that baby should not take any other nourishment. Lactated food saves babies' lives.

The diet of a child from six months to three years old should be as carefully regulated as in the first weeks of its life. And during hot weather, especially, the food should be pure and wholesome, and the child should be kept cool.

There is always a chance of slight mistakes in feeding baby, and in hot weather such errors often result in cholera infantum. In fact, baby is not strong and abundantly nourished.

Babies properly fed on lactated food never succumb to cholera infantum.

The experience of hundreds of physicians, public institutions, and thousands of mothers proves that lactated food is the safest article that can be used as the food of young children during the hot months.

Mothers who have never used lactated food should remember that it is so inexpensive as to be within the reach of the humblest home. Enough meals can be made from a dollar package to last nearly four weeks. The food thus prepared from plain directions on each package costs less than five cents a quart, and lactated food saves babies' lives.

THE WAR FEVER

The Japanese People Have It in a Virulent Form and Orators Are Increasing It.

Speakers Are Preaching of Vastly Ambitious Schemes Including the Conquest of a Chinese Province.

Japanese Pouring Fresh Troops Into Corea and Have About Fifty Thousand Soldiers There Now.

A Revision of the Treaties Between Japan and the Foreign Powers Announced by Japan.

LONDON, Aug. 16.—A dispatch to the Times from Shanghai says that the Japanese are pouring fresh troops into Corea and that upwards of 50,000 Japanese soldiers are now in Korean territory. The Chinese fleet, according to the same dispatch, is remaining passive. In Japan the war fever is intense and universal, the papers and popular orators preaching to the excited people of vastly ambitious schemes including the conquest of China, or at least the conquest of the Chinese province of Manchuria. The Japanese populace and press are under complete official control. Perfect order prevails among the town population. The Japanese government enforces complete secrecy in respect to all military movements and a rigid censorship is observed.

A REVISION OF TREATIES. Important Action in Regard to Foreigners Is Taken by Japan.

YOKOHAMA, Aug. 16.—A notice has been issued to the effect that a revision of the treaties between Japan and the foreign powers will be taken in hand for them. The essential features of the revision will be that foreigners will not have the right of trial in their own consular courts. The government will confer upon foreigners certain privileges relating to the tenure of land settlement right, and foreigners will also have certain privileges in regard to taxation. The foreigners here are greatly concerned at the proposed revision of the treaties and are strongly of the opinion that the time has not arrived when their interests can be left to the Japanese government.

An Improbable Rumor. LONDON, Aug. 15.—A Yokohama dispatch to the Chronicle says a rumor has reached there of an important naval engagement between Chinese and Japanese fleets off Wei Hai Wei on Aug. 10. Seven Chinese vessels belonging to the Northern squadron were sunk, according to the report.

OPPOSED TO FUSION. Governor Waite Urges the Populists Not to Fuse with Democrats.

DENVER, Colo., Aug. 16.—Governor Waite has written an open letter to the Populist party of Colorado in which he strongly opposes fusion with the Democrats. In conclusion he says: "I have endeavored, to the best of my ability, to run the affairs of the state in the interest of the miners and laboring men and, so far as I could, have stepped upon the aristocracy, thieves and robbers who have stolen the state poor in previous administrations, and even defrauded the school children of the state of nearly \$500,000. If we cannot afford to be so miserably after carrying the state, succeeded again on our own platform and with our own men, and without looking for support outside the party organization, then the People's party is premature and the American people are not yet ready for reform."

THE CLEVELAND MEN WON. Texas Democrats Adopt a Platform Endorsing the President.

DALLAS, Aug. 16.—There was a big fight on in the Democratic convention yesterday. After the introduction and reference of several resolutions the convention adjourned until 2 p. m. It looks as if the two-thirds rule will prevail, all other candidates having apparently pooled against Culberson to prevent his nomination under the majority rule. Governor Hogg two years ago and who is in control of the platform committee 17 to 4, was dead set for a straight out Cleveland platform silver, use of federal troops at Chicago and all. Finally the majority report endorsing Cleveland straight out and against 16 to 1 silver was adopted at a late hour tonight.

HE WANTS MARTIAL LAW. Appeal to Governor Waite by a Resident of El Paso County.

DENVER, Aug. 16.—Norman C. Jones, of Manitou, has appealed to Governor Waite to declare martial law in El Paso county, and failing to secure that, will lay his grievances before President Cleveland.

Jones had trouble with a tenant, C. C. Ernest, who assaulted him and fled to Kansas. Jones claims that Sheriff Howers and the other officials of El Paso county are in a conspiracy to deny him justice and that his life is unsafe in El Paso county.

The Transvaal Rebellion. PRETORIA, South Africa, Aug. 16.—The Kaffir rebels at Zoutpansberg and that district have murdered large numbers of women and children. The Boers forces of the Transvaal government will attack the rebels today.

GONE TO GRAY GABLES.

By His Physician's Order President Cleveland Takes a Few Days' Rest.

WASHINGTON, Aug. 16.—President Cleveland left for Washington at 7:20 this morning for Gray Gables. In explanation of his sudden departure the following statement was furnished by Private Secretary Thurber: The president left this morning for a few days' absence under the advice of his physicians, in the hope of shaking off an attack of malarial fever which he has been suffering for several days. Yesterday the attack culminated in a fever, but which was under control this morning.

Dr. O'Reilly, his physician, expresses no doubt but that a few days of salt air and rest will recuperate the president sufficiently to return to his official work and he will return to Washington by the middle of next week. He has gone to Gray Gables and is accompanied by the doctor, Capt. R. D. Evans also accompanied the president but it is probable that he will stop at New York where he will take command of his ship, the New York, in a day or so.

Senator Berry, Representatives Outhwaite and Turner, of Georgia, and several other congressmen called at the White House after 8 o'clock and were surprised to find that the president had departed.

The president took with him the tariff bill, also the river and harbor appropriation bill, and thus can act upon them while in case he sees fit to do so. The ten days within which the president has to act on the river and harbor bill expires Saturday night, but he has until Monday, Aug. 27, which he can act on the tariff bill. The president, it is believed, will return on Aug. 24 or 25, and probably on Aug. 24. The president occupied a special car on the train which is due in New York at 1:20 p. m.

It is learned that the president did not take the enrolled copy, which he must sign, of the tariff bill with him but merely an ordinary printed copy of the bill, presumably for purposes of examination. The enrolled copy of the bill was taken from the White House about noon to the treasury department in the usual course of official routine. It is not at all likely that this enrolled copy will be sent to Gray Gables later and the probabilities are for presidential action on the tariff bill being delayed until Mr. Cleveland's return to Washington next week.

L. A. W. NATIONAL MEET. The First Day's Racing at Denver Favored With Perfect Weather.

DENVER, Colo., Aug. 16.—This is the first racing day of the L. A. W. national meet. The weather is perfect, and as the riders pronounce the new track of the Denver Wheel club one of the finest in the country, records are likely to be broken. Of today's program are two championship events, the 1/2-mile and 5-mile races. The other events are the 1-mile novice, 1-mile 230 class, 1/2-mile open and 1/2-mile 230 class, 1/2-mile open and 1/2-mile 230 class, Class B.

The officers of the track are: Referee, Howard L. Raymond, chairman national racing board, J. M. Brewster, treasurer L. A. W., J. C. Jackquie, member of racing board, Fred Patce, of Indianapolis, E. S. Hartwell and W. T. Cornwell, of Denver; Thomas F. Sheridan, ex-vice president of the L. A. W., Andrew McGarrett, of Springfield, Ill., James Joyce, Jr., of Hartford; clerk of course, W. E. H. Keow, starter, C. H. Hilton. Trial heats were run off this forenoon and the finals will begin at 3 p. m.

ON A TRIP OF INSPECTION. Commissioner Hampton to Inspect the Bonded Pacific Routes.

WASHINGTON, Aug. 16.—Gen. Wade Hampton, the commissioner of railroads, accompanied by Private Secretary Thomas, left for the West yesterday to make an annual trip of inspection of the properties of bonded Pacific railroads. The work will be commenced at Omaha, the Eastern terminal of the Union Pacific, and will occupy about six weeks. The books and accounts of the Union Pacific and the Central branch of the Union Pacific have been examined in Boston by Bookkeeper C. E. Storm, of the railroad commissioner's office, who has also examined those of the Missouri City & Pacific in Chicago and of the Central Pacific in San Francisco.

The accounts due to the government for the calendar year 1893, under the provisions of the Thurman act, have been found to be in excess of the receipts for the previous year, notwithstanding the industrial depression.

APPLIED FOR PROTECTION. Force of Deputies Asked to Protect Miners Near Pittsburg.

PITTSBURG, Aug. 16.—The Pittsburg and Chicago Gas Coal company have made application to Sheriff Richards for a force of deputies for duty at the mines, where it is claimed the striking miners have been interfering with the new men imported by the company.

Twelve deputies were sworn in by Sheriff Richards and were sent to Snowden, which is close to the Washington county line, under command of Edward Lomis. The situation at Gastonville has now been reported alarming.

To Inspect Reservations. WASHINGTON, Aug. 16.—An official inspection of the reservations in Dakota and in the Northwest will be commenced by Commissioner of Indian Affairs Browning in the beginning of next month. Browning will not leave before the return of Gen. Armstrong, the assistant commissioner, who has been investigating reservations in the far West. The work will probably occupy the entire month.

Rezers in the Air. BRAZIL, Ind., Aug. 16.—At a negro revival west of the city last night several drunken toughs endeavored to break up the service by assaulting the participants with clubs and stones. A great fight followed in which razors and revolvers were freely used. Several persons were reported severely if not fatally wounded. The affair has caused much excitement among the colored people.

WELLMANTALKS

The Arctic Explorer Tells of His Failure to Reach the North Pole.

Nothing Daunted by the Great Hardships and Perils He Will Try Again Next Year.

Had to Return Owing to Steamer's Loss and Breaking Up of His Line of Retreat.

The Scientific Men of the Party Made Interesting Observations in Geology and Natural History.

[Copyrighted 1894, by the Associated Press.] TROMSØ, Norway, Aug. 16.—Walter Wellman, with the crew of the rescued steamer Ragnvald Jarl, arrived here yesterday on the fishing yacht Bernine, Capt. Johnson, from North Spitzbergen. All the members of the party were well. Discussing the failure of his expedition to reach the pole, Mr. Wellman said to reporter of the Associated Press:

"After the loss of the Ragnvald Jarl and the consequent breaking up of my line of retreat, I was compelled to modify my plans for this summer's work and make sure of being able to return to the coast of Spitzbergen earlier than I intended, though the expedition reached within a few miles of the eighty-first parallel on May 12, eleven days from Tromsø. The season had then changed to the other extreme. North of the Seven Islands, situated at the extreme north of Spitzbergen as far as we could see, were masses of heavy, unbroken ice, which appeared absolutely impassable.

"The expedition then turned its face east along the northeast land and though the northeast gales broke up the ice which had promised to afford smooth and easy travelling, the whole northeast land was explored. The scientific men of the party made many interesting observations in geology and natural history. Professor Owen B. French, of the coast and geodetic survey, Washington, accurately surveyed a large part of the coast. Among the points added to the map by virtue of the discoveries made during this survey are Capes Gresham, Whitney, Armour and Scott and Walsh island.

"On July 1, with seven men and an aluminum boat, I started to force my way over the pack ice but was compelled after several days of fruitless struggle with the ice to give up the attempt. On July 4 I started to return to Walden island, crossing Dove bay. We were all compelled for hours to wade through water waist high. The screwing of the pack ice threatened to destroy boats and sledges, but though they were subjected to the hardest usage, the aluminum boats came through unimpaired. Had not been for the protection afforded the stores by the water tight cases, progress would have been impossible in the pack ice, where men and sledges were half the time in the water and half the time on the ice.

"In crossing Dove bay, Alme, the meteorologist of the party, broke a bone of his right leg and had to be carried in the boats to Walden island, which was reached on July 22. We waited a fortnight in vain for open water and on Aug. 4 decided to push through the ice. "The attempt was most dangerous, but was successful and our boats reached Low island on Aug. 5, where we sighted the Bernine. Eventually we hired her to convey our party to Tromsø. We sailed from Low island on Aug. 8, and reached Dances island on Aug. 8. There we took off Professor Oye, the geologist, and Hyerdahl, the ski-runner and sportsman, and the university of Christiania, and the stores which they were guarding for us.

"Though we were unable to get as far north as hoped in 1894, on account of the loss of our steamer and the bad nature of the ice, I am determined to try the Spitzbergen route again in 1895."

SENSATION IN OKLAHOMA. An Englishman Arrested for Living With Another Man's Wife.

PERRY, O. T., Aug. 16.—R. T. Brooks, who is said to be an English lord, was arrested here on the charge of living with another man's wife. The woman was also arrested and both gave heavy bonds, which Brooks paid. L. E. Parker says the woman in question is his wife and sues Brooks for \$50,000 damages. Brooks says it is a blackmailing scheme. The woman obtained a divorce from Parker a few days ago. Rumor has it that Brooks is a defaulting English bank cashier, which he denies. The arrest has caused a great sensation as Brooks is well known.

TELLS A STARTLING TALE. A Missing Woman Rescued With a Strange Story.

CHATTANOOGA, Tenn., Aug. 16.—Mrs. Henry Genies, wife of an old farmer living ten miles below this city, disappeared in a very mysterious manner last week. Yesterday she reappeared in a pitiable state and tells a startling tale. Ten Massingale, a young mountaineer, deeply infatuated with her, at the point of a pistol forced her to accompany him to a wild cave in Signal mountain where he kept her. Massingale has fled to the wilds of Signal mountain and is beyond hope of capture.

A Strike Ended. CHICAGO, Aug. 16.—The butchers strike at the stock yards has been declared off and the terms proposed by the strikers accepted. About 500 men were out and all today applied for their old positions.

THE RIOTS AT WINONA.

The Trial of Sixteen Men to Be Begun Tomorrow.

WINONA, Minn., Aug. 16.—The Polish rioters of last night celebrated their victory over obtaining the release of Blashek from jail till a late hour. This morning the sixteen indicted men were arranged before the judge and the case continued till 10 a. m. Friday. Trouble is feared tomorrow after the trials.

The riots are the culmination of the old trouble over the appointment by Bishop Cotter of priests for St. Stanislaus Polish Catholic church. A mass meeting was held Tuesday evening, and it was decided to forcibly close work on the new \$75,000 church. Otto Blashek, a bartender, was chairman. Another meeting was on the program for last evening and fearing violence, the authorities placed Blashek under arrest. Half an hour later 500 Poles appeared at the county jail where Blashek was confined with the American flag flying and pockets full of cobble stones and demanded Blashek's release. The militia was in readiness near the scene until matters were temporarily compromised by the release of Blashek on \$500 bail for his appearance in court this morning on a charge of inciting riot. At a largely attended meeting of dissenting Poles it was decided to make a last effort to secure a recognition from Bishop Cotter of their demands. A monster demonstration in which they will call in a body on the bishop is being planned. If this fails of the desired end, they openly announce that they will secede from the Catholic church. There have been no further demonstrations during the day. The police are prepared to suppress any outbreak that may occur tonight.

HEAVY RAINS IN KANSAS. The Drought Broken at Last and Crops Will be Benefited.

PEABODY, Kan., Aug. 16.—The long spell of dry weather in this vicinity was broken today by a steady rain. Fruit will be materially benefited. NEWTON, Kan., Aug. 16.—One of the worst droughts experienced in ten years was broken this morning by copious rain. Corn will be better and pastures better. INDEPENDENCE, Kan., Aug. 16.—Heavy rain began falling in this section this morning. It came in time to greatly benefit late corn and improve pastures.

WILL DIAMONDS BE FREE?

A Complication Due to Bad Punctuation in the Bill.

WASHINGTON, Aug. 16.—The copy of the tariff bill in possession of the chairman of the house enrolling committee, by which the bill sent to the president was compared and verified and which is regarded as unquestionably the same as the president's copy, contains the following paragraph in the free list: "Free list 467. Diamonds; miners' glaziers and engravers' diamonds not set and diamond dust to be used in the manufacture of watches and clocks." It is the semicolon after the word diamonds in the beginning of the paragraph that is considered of such importance. Senator Jones, of Arkansas, insists that the semicolon will not be construed so as to admit all diamonds free of duty. The intention, he said, was to have the word diamonds made a sub-head under the semicolon, instead of a colon will not be allowed to admit diamonds free, especially when construed with the jewelry schedule, which especially provides "uncut precious gems of all kinds, 10 per cent. ad valorem."

Senator Jones says the words quoted, taken in connection with the intention to make the word diamonds in the free list as a sub-head, will be construed to make diamonds subject to the duty on precious stones. Secretary Carlisle is too good a lawyer to construe the act in any other way, remarked the Arkansas senator.

HE SHOT HIS FATHER. A Domestic Quarrel in Tennessee Ended in a Murder.

CLARKSVILLE, Tenn., Aug. 16.—From Riverside, just over the Kentucky line comes news of a murder resulting from a domestic quarrel. Edwin Lemasters and his wife indulged in a dispute, the woman finally threatening her husband with a shot gun. Upon the husband's threat to knock her down if she did not drop the weapon, a son, W. L. Lemasters, shot his father and killed him. The boy escaped, but if caught will be lynched.

Carrying the Mails. WASHINGTON, Aug. 16.—Representative Tate, of Georgia, has introduced a bill providing that when two or more persons residing in the county through which mails are to be carried are among the bidders for carrying them, and when in the judgment of the postmaster general their bids are reasonable, the contracts shall be awarded to the lowest bidder of them to the exclusion of outsiders.

A HOT NAVAL BATTLE

The First Fight Between the Japanese and Chinese Vessels Lasted Over One Hour.

Although They Were Greatly Outnumbered the Chinese Vessels Fought Gallantly and With Great Skill.

Four Chinese Transports Missing and Were Supposed to Have Been Lost in a Typhoon.

VICTORIA, B. C., Aug. 16.—The steamer Tacoma from Hong Kong brings the following account of the naval battle July 20 in the neighborhood of Gassan. Three Japanese man-of-war, the Akitsushima, Takachibo and Naniwa met at sea, the Chinese cruiser Tsi Yuen with a small dispatch boat, the Ko-Osu, and the transport Kuo Shing, and after an engagement lasting one hour and twenty minutes captured the dispatch boat and sunk the transport, while the cruiser escaped. To fully appreciate this action the relative position of the combatants must be considered.

On the Japanese side were the Akitsushima with a tonnage of 1,150 and speed of 12 knots, the Takachibo of 700 tons with a speed of 18 knots and the Naniwa, fully as big, powerful and swift as either of her companions. The armament of the three included 12-ton guns, 4.2-ton guns, 20 quick-firing and 32 machine guns.

On the other side was the Tsi Yuen with a tonnage of 2,355 and a speed of 13 knots and carrying two 8.1-inch guns, one 5-inch and nine machine guns. The dispatch boat was unarmed and being a wooden ship, not steaming more than 8 knots. Her power of resisting capture was as small as her capacity to evade it.

The Japanese war ships were proceeding toward Jinsen when the Chinese vessels were met. The Chinese warship seeing the Japanese flagship immediately opened her ports, instead of observing the usual courtesies, and began the fight, apparently to cover the retreat of the transport, which was promptly pursued by the Naniwa. At this juncture the transport was flying the white flag as well as the English colors.

What happened to her was not seen by the combatants, but was reported by the Naniwa. Her officers state the flag of surrender was not sooner displayed than the Chinese on board prepared to attack the boarding party from the Naniwa and in fact did fire on them as they came alongside. The boats then returned to the cruiser and the transport was sunk with one well-directed shot.

In the meantime the other Japanese ships engaged the Chinese warships in a battle which lasted for over an hour. The Chinese boats then displayed the flag of surrender on the Ko-Osu, and the Japanese men-of-war were approaching her, when she suddenly discharged a torpedo which, however, the Japanese were able to avoid. The engagement was renewed more hotly than ever, till finally the Tsi Yuen turned and made off at full speed toward Jinsen, being pursued for 100 miles by the Japanese, but not overtaken. The Ko-Osu got aground in shallow water while seeking shelter and anchor and thus fell an easy captive to the Japanese.

The Chinese fired their guns much more rapidly than their opponents and had they not been so greatly outnumbered, would undoubtedly have achieved a victory. As it was, it is testimony to the skill of the Tsi Yuen commander that he fought two of the Japanese best ships for an hour and then escaped. The running of Japanese steamers between Jinsen and Fusan has been suspended. General travel on the smaller Oriental lines is very much broken and news of an authentic nature is difficult to obtain. In Yokohama it is believed that China's plan will be to march troops in the Korean country, and the Japanese government is said to be taking measures accordingly.

The queen of Korea is under medical treatment as she is attacked with malaria. At the time of sailing of the Tacoma from Yokohama, four Chinese transports were reported missing and were supposed to have been lost in a typhoon.

MODIFIED WORKING RULES. Glass Workers Made Concessions to Meet Non-Union Competition.

PITTSBURGH, Pa., Aug. 16.—The American Flint Glass Workers' union, in conference yesterday with the manufacturers, accepted for the first time in many years modified working rules. Under the new rules, which affect 10,000 to 12,000 operators, the manufacturers agreed to increase production per unit to meet conditions caused by non-union factories which operate without a limit, making a larger number of pieces for the same prices. The stress of non-union competition has become so great that the union men have been compelled to yield. The change means cheaper glassware.

New Terminal Facilities. KANSAS CITY, Aug. 16.—Another large trunk line was today given superior terminal facilities in this city. The Maple Leaf commenced to use the Kansas City Suburban Belt railway for their passenger business. The Maple Leaf has heretofore landed its passengers at an outlying point and been compelled to transfer them to the city. The present arrangement will land them in the central part in a brand new and spacious depot.

Cholera in Prussia. LONDON, Aug. 16.—A dispatch to the Standard from Berlin says: Four fresh cases of cholera were reported in East Prussia yesterday. One of the patients died. Several cases of cholera, and two deaths are reported from the district of Koloman.

Canadian Lumbermen Jubilant. OTTAWA, Ont., Aug. 16.—The lumbermen here are jubilant over the prospect of free lumber in the United States. Last year Canada paid over \$1,000,000 in duty on lumber and other forest products, which will now be admitted free if the president signs the tariff bill.

Paying the Cherokees. SEOUHAI, I. T., Aug. 16.—The Cherokee payment began here yesterday. The amount to be paid out is about \$700,000 and will continue all the week. Four large gambling houses are doing a big business while the camp swarms with the worst of the lowest classes of fallen women.

HE DIED AT DAYBREAK

Santo, the Assassin of President Carnot, Suffered Death by the Guillotine Early This Morning.

A Large Crowd Witnessed the Execution Including Numerous Ladies Seated in Windows Near By.

Santo Was in a State of Abject Terror Throughout and Acted Like a Coward.

LYONS, Aug. 16.—At 4:55 this morning, Cassan, Santo Geromino, the assassin of President Sadi Carnot, suffered death upon the guillotine. At 1 o'clock this morning the police commenced to clear the people away from the vicinity of the square in which the execution was to take place, hardly a score of onlookers were in it. Nobody was permitted to walk the pavement around the jail. At 3 o'clock from a window near Santo's, a prolonged cry followed by the cry repeated of "Vive L'Anarchie!" broke the stillness. This was followed by a dead silence. Perhaps it was a signal to warn Santo of his approaching doom.

When the preparations of Diebler had been completed, he tested the guillotine. It was then 3:25 o'clock. The troops then closed in around the guillotine. When daylight arrived the square and streets nearby were thronged with people. Escorted with a squad of gendarmes the executioner and his men entered the prison at 3:30 o'clock.

M. Raux, the governor of the prison, awakened Santo, saying to him: "Courage, Santo, the hour has arrived. You are condemned with a great effort raised against you, but your fate is sealed. This trembling continued until the last moment. He could hardly stand and his limbs were so stiff with cold and fright that he could not move. He was put on the guillotine.

Santo declined to see his counsel and had nothing to communicate to the judge. "Have you any last wish to communicate?" he was asked. He answered: "No, only send my letters to my mother." In reply to whether he would have breakfast, Santo declined either food or drink. He also refused religious consolation from the priest. When Governor Raux spoke to Santo of his mother the condemned man's eyes filled with tears and he nearly choked with emotion. He soon regained his habitual indifference although still pallid and an trembling. From this moment he said nothing more.

Diebler and his assistants left the prison at 4:50, and Santo soon followed, walking with extreme difficulty, his open shirt displaying his breast, frail and bony, his eyes fixed on the guillotine and then wandered to the troops and the crowd. He uttered the words, "Courage comrades!" and "Vive L'Anarchie!" but the sounds issued feebly from his closed teeth and were scarcely audible beyond the troops.

The words were scarcely uttered when Santo was seized and pushed towards the guillotine. He made a feeble attempt to resist, but his weight was much too light, and his executioners were forward to raise him and thrust him forward, obliging Diebler to come to the assistance of his men and place Santo's head under the lunette. Much time was taken up by these movements. At last the condemned man was placed on the guillotine and his head dropped into the basket beneath.

The execution of Santo, which took place at 4:55 in broad daylight, was witnessed by a great number of people. The windows in the vicinity were crowded with ladies who were dressed in fashionable toilets. The roofs and other places of vantage were thronged with people. Fabulous prices were paid for places in windows overlooking the spot selected for the execution. This was the open space at the junction of Rue Smith and Rue Courcelle, with the prison on one side, the gendarmes' barracks on another, a large wall on the third, while the Rue Smith was barricaded about 70 meters from where the guillotine was erected.

The barricade was guarded by a squadron of cuirassiers and another detachment was stationed in Rue Courcelle. The execution took place in the third regiment of the line, in addition to 500 police and gendarmes, formed a cordon around the place of execution. At the last moment Santo agreed to Santo's dying in abject terror.

What is CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrup, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria is the Children's Panacea—the Mother's Friend.

Castoria. "Castoria is so well adapted to children that I recommend it as superior to any prescription known to me." J. W. ALLEN, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"The use of 'Castoria' is so universal and its merits so well known that it seems a work of supererogation to endorse it. Now are the intelligent families who do not keep Castoria within easy reach." CHAS. M. LEE, M. D., New York City.

"For several years I have recommended 'Castoria' and shall always continue to do so as it has invariably produced beneficial results." F. W. P. DARR, M. D., 12th Street and 7th Ave., New York City.

MORTGAGE SALE.

Joseph F. Gulick and Maria, his wife, on the first day of October, 1892, mortgaged to William E. Luma, lot No. 10, E. 1st and 2nd, on East Seventh street, Duluth, Minn., First Division, St. Louis County, Minnesota, according to the recorded plat thereof, in the office of the register of deeds of said county, to secure the payment of two thousand dollars (\$2000), with interest payable semi-annually at eight per cent. This mortgage was recorded in the office of the register of deeds of said county, October 14th, 1892, at 8 o'clock a. m. in Book 12 of mortgages, on page 10, was with the principal and interest coupon notes thereby secured, and was given by said Luma, Charles College on the 15th day of October, 1892, and the assignment recorded the same day at 4 o'clock p. m. in Book 97 of mortgages on page 82, in the office of the register of deeds of said county.

It was provided in said mortgage that, upon failure to pay interest upon the amount secured thereby when the same should become due and payable, the whole sum secured by the terms of the mortgage should at once, at the option of the mortgagee, become due and payable, and default was made by said mortgagor in the payment of the interest due on the first day of September, 1894, eighty dollars on each date, and the undersigned has exercised its said option and declared, the whole sum, principal and interest, secured by said mortgage, to be due and payable, there is now claimed to be due and is due on the debt secured by said mortgage, for principal and interest the sum of two thousand, one hundred and eighty dollars and ten cents, and no action at law has been instituted for the recovery of any part of the same.

Therefore, in pursuance of the power of sale contained in said mortgage and of the terms of the statute in such case made and provided, the above described parcel of land will be sold by the sheriff of St. Louis County, Minnesota, at public auction to the highest bidder for cash, at the front door of the county court house, in Duluth, Minnesota, on the twenty-second day of September, 1894, at ten o'clock in the forenoon, to satisfy the amount then due on the debt secured by said mortgage, the amount, if a balance, paid for taxes on said parcel by the mortgagor, and the balance of the sum to be determined with eight per cent interest thereon, for the arrears of interest, for principal and interest, including an attorney fee of seventy-five dollars, and the balance of the sum to be determined with eight per cent interest thereon, for the arrears of interest, for principal and interest, including an attorney fee of seventy-five dollars, and the balance of the sum to be determined with eight per cent interest thereon, for the arrears of interest, for principal and interest, including an attorney fee of seventy-five dollars, and the balance of the sum to be determined with eight per cent interest thereon, for the arrears of interest, for principal and interest, including an attorney fee of seventy-five dollars, and the balance of the sum to be determined with eight per

Restricting Immigration.

A Washington dispatch today says that
an agreement will probably be reached by
the house and senate conferees on the
immigration bill, whereby Senator Hill's
anti-anarchist bill will be passed by the
house at once and Representative Stone's
consular inspection bill, on which the
house insists, shall be discussed in the
senate on the merits at the opening of
the winter session.

That there is need of an anti-anarchist
bill like the one fathered by Senator
Hill there can be no doubt. The strict
repressive laws now being passed by
European nations to put down the anar-
chists are being followed by a general
uneasiness among them and the ex-
pressed intention of transferring their
scene of operations to this country. We
do not want such people in this country.
There are a few of them here
already and they are disturbing
and dangerous elements that are
a menace to life and property. Since
the hanging of the principals in the Hay-
market massacre in Chicago, they have
been keeping pretty quiet, but if a whole
horde of anarchists should come here
from European countries from which
they have been driven by repressive
measures, there would be very serious
danger of another anarchistic outbreak
on this side of the Atlantic. Senator
Hill's bill is designed to keep such dan-
gerous creatures out of this country, and
to expel them if they should slip in un-
aware.

But Senator Hill's measure does not
accomplish all that it is desired to attain
in the way of restricting immigration.
The consular inspection system provided
in Representative Stone's bill, or some
similar system, is required to
keep out other undesirable classes
of immigrants. The problem of keeping
up wages here above the European level
is seriously affected by the immense
crowds of ignorant laborers that are be-
ing brought in. The Republicans claim
that our manufacturers need protection
in order that they may pay the higher
wages that have ruled here in the past,
but there is no sense in trying to benefit
our people by keeping out cheap foreign
manufacturers if we are going to allow
cheap foreign labor to come in without
restriction.

This is a different question from the
anarchists, who ought to be kept in
mind as a mere matter of police protec-
tion, but the whole subject of unre-
stricted immigration is probably the
most important one that will come up in
Washington in the next few years and
it deserves a serious consideration,
which, up to this time, it has not re-
ceived. No set of people are considering
this matter more than the working
people of this country, and they will
soon demand that their representatives
in congress, who have been pursuing a
weak and timid policy in regard to this
important question, shall grapple seri-
ously and courageously and put a stop
to the flooding of this country with
cheap labor.

Wheat Freight Rates.

The Minneapolis Market Record has
published an article dealing with the
wheat freight rates charged by the rail-
roads in the Northwest, and especially
by the Great Northern road, and alleg-
ing that they are excessively high and
are capable of standing an important re-
duction. There is no doubt that this
article is prompted by the elevator in-
terests at Minneapolis, to which Mr.
Hill's recent reduction in elevator charges
at this end of his railway system is
not pleasing. Mr. Hill has taken the
very reasonable position that railroads
should handle wheat in the same manner
as they do flour merchandise, so far as
storing it in warehouses is concerned,
and has reduced the elevator charges
to a figure that will cover the actual
expense of cleaning and handling.

The Minneapolis grain men know that
a much larger proportion of the wheat
will come to the Duluth elevators this

year, if the Minneapolis elevators do
not meet Mr. Hill's cut. Hence this
attack upon his wheat freight rates as
excessive. The Market Record well
knows that there has been a heavy de-
crease in the earnings of all Northwest-
ern roads during the past two years, and
it would be singular if the Great North-
ern is not among the number. Mr. Hill
has promised to reduce freight rates
when the amount of business will war-
rant it, and no doubt he will carry out
his promise. But it is not to be expected
that he will do this at a time when earn-
ings are at a low point and a much
further decline might send the road into
the hands of a receiver.

The English press keeps very close
watch on this country. The Star of Beth-
lehem, a religious paper published in
Leeds, England, prints this interesting
editorial leader: "A big revolution is
now going on in the United States, and
America and there is little doubt that
the government will be defeated. The dic-
tator, Debs, has been driven from his
palace and he and his mistress are now
hiding in the mountains. The greatest
trouble has been experienced in the
capital of Chicago, where Grover Cleve-
land has obtained complete control. The
railroad at that place has been torn up
and thrown into the Mississippi river,
and the stock yard has been razed to the
ground."

The watering places, North, West and
East, mountain, lake and ocean, are full
of people. The newly discovered "re-
sorts" are full and the old time pleasure
grounds and springs are more frequented
than ever. Cape May, one of the "an-
cients," has more visitors than before in
five years, and recently ten hotels there
were obliged to turn away guests. This
seems to the Kansas City Star a queer
comment on the "hard times." Amid all
the moaning and groaning are heard the
merry voices of the pleasure seekers.

The Washburn men are shouting with
gladness, because they have carried the Re-
publican primaries in Hennepin county.
It is simply another case of "the Dutch
taking Holland," and that is all there is to
it. If the junior senator's friends
could not have carried the Republican
primaries in his own county, his chances
of re-election would have gone glimmer-
ing altogether.

There is a factious barber on Liberty
street, New York. He does not trust to
the red and white pole to draw custom,
but woos the public by signs in his win-
dows reading, "Your chin scraped while
you wait," "Shampoo good as new,"
"Hair cut to suite age and weight," "Re-
ductions made to men over 50," "Bald
headed man's hair quickly cut."

Harian Page Halsey, better known as
"Old Sleuth," the writer of his raising
detective stories, is an active member of
the Brooklyn board of education. His
income from his novels is about \$20,000
a year. It is not probable that he would
recommend any of his novels as part of
the public school curriculum.

The Washington Capital thinks that
Isham Harris is certainly the Li Hung
chang of the senate. Possibly, but in
brains and the ability to use them David
D. Hill leads the whole senate.

The net profits of gambling on the
continent are estimated by an authority
to exceed \$5,000,000 a year. American
tourists contribute a large portion of this
profit.

The Chicago Herald says: "The Re-
publicans will not hold their annual
summer picnic this year." No, they will
wait until November for their picnic.

Mrs. Sidney Drew wants a divorce,
and says her husband has been acting
badly. There are many theater-goers
who will endorse her statement.

Walter Wellman is back again at
Tromsø, Norway, having failed to reach
the North Pole owing to his ship being

crushed in the ice. Possibly he will now
quit this foolhardy enterprise. What
benefit to the world will it be if some
man does succeed in reaching the North
Pole and gets away alive?

False Teaching.

Philadelphia Press: During the past
twenty years there has been a steady in-
crease in the boldness, not to say reck-
lessness, with which socialistic principles
and doctrines against the rights of prop-
erty have been proclaimed in this
country by men of education, who either
did not know or did not care what harm
their words might do. They have read
a little and thought a little on the sub-
ject, and have been carried away prob-
ably by their enthusiasm to right im-
mediately some fancied social wrong,
but the less intelligent classes have in-
terpreted this language as evidences
that they are correct in believing that
the poor are oppressed by the rich. The
fruit of this kind of teaching has been
strikes and anarchistic outbreaks, which
have grown steadily in size until the
help of the general government has had
to be called in to suppress them.

The Lay of the Mercury.

I have no wings; I cannot soar;
Yet better records have made;
But slow degrees, by steady climb
I steer for ninety in the shade.

Although the summer poet's verse
Might not be any sweeter,
Hail to the man who, for better truth
To write in thermo meter.

No matter if we melt or freeze—
In summer time or in winter—
We're going to get there by degrees—
Thermometers and men.

The thermometer looks so innocent,
But you'd better have a care,
For if you watch it climb
You're certain to want to stare.

While people marvel that the bulb
Can rise to such a fantastic height,
A cool wave brings the mercury
Down from its airy flight.

A Needed Reform.

Minneapolis Penny Press: The next
state legislature should be called upon
to supplement the Australian ballot law
with its necessary adjunct, and that is
the curtailment of money to be spent in
election contests. The "treating" of
voters should be especially prohibited,
and in that manner an objectionable
feature in election campaigns would be
abolished.

Rides on Wind.

"In olden times I did walk on air
Ye winners of ye maiden fair;
But now 'tis the horse the jockey prizes—
'He mounts his wheel and rides on wind.'"
—Buffalo Courier.

Protection Needed.

Boston Transcript: She: The idea of
spending \$1,000,000 to exterminate the
Russian thistle! Why don't they exter-
minate some of the other weeds—widows'
weeds, for example?

He: There's no call for governmental
assistance. Widows' weeds are easily
exterminated and it costs the govern-
ment nothing; the expense falls on the
exterminators—and yet they will do it.

To Free Bottles from Oil.

New York Evening Post: To
cleanse glass bottles that have held oil,
place ashes in each bottle and immerse
in cold water, then heat the water grad-
ually until it boils, after boiling an hour,
let them remain till cold. Then wash
the bottle in soapsuds and rinse in clean
water.

Sailors do Not Know How to Swim.

Harpers Young People: The aver-
age sailor cannot swim, and the famous
Norse heroes, who are supposed to have
been the greatest swimmers the world has
seen, could not swim, either.

THE IMMIGRATION BILL.

An Agreement Between the House and Senate
Probable.

WASHINGTON, Aug. 16.—An arrange-
ment probably will be reached soon by
the conferees on the immigration bill
which was first drawn by Representa-
tive Stone of Pennsylvania, and passed
by the house, providing for consular in-
spection abroad for which Senator Hill's
provision to exclude anarchists was
substituted.

The agreement in sight is one for con-
sular inspection and Senator Hill's plan to
exclude anarchists is in the hands of the
senate, and it is in my office, pay-

EAGER TO LOAN

Financiers of London, Berlin and Other Capitals of Europe Ready to Make Loans to China.

Over One Hundred Million Pounds Was Offered China When the Loan Was Mentioned.

The Result Is That the Chinese Will Now Pay Only Four Per Cent Interest.

At Least Two-Thirds of the Loan Will Be Paid to China in Silver Coin.

LONDON, Aug. 17.—The financiers of this city, Berlin and other capitals of Europe are eagerly discussing the proposed Chinese loan. Inquiries made by a representative of the Associated Press at the offices of Jardine, Matheson & Co., London and Chinese merchants, and at the offices of the Hong Kong and Shanghai Bank company show that the loan which the great banking institutions of Berlin are said to be offering for China amounts to 10,000,000 taels, and not to £10,000,000 as previously announced here and in Berlin. A tael is estimated to be worth about one ounce and one-third of silver, or roughly speaking six shillings sterling or \$1.40, supposing these amounts represent the value of silver of the weight of one tael.

It appears that about a month ago China inquired through the Hong Kong and Shanghai bank for the rates at which such a loan to be made in silver could be effected. The bank commissioner offered to loan the China government £1,000,000 or \$5,000,000. Jardine, Matheson & Co. had also been consulted in regard to the proposed Chinese loan, and offered to lend China another £1,000,000 or as much more as the government should require. But Viceroy Li Hung Chang declined these offers at that time, saying that the Chinese government needed the money, as China had meditated to get on with.

Later, however, it became known that in view of the repayment of the last portion of the present 7 and 6 per cent gold bonds due at the Hong Kong and Shanghai bank in January, 1895, and in view also of the war need of the Chinese government, a syndicate of German bankers was at once formed in Berlin and their agents at Peking were instructed to ask Viceroy Li Hung Chang for an option on the loan. "Dozens of London and German bankers and agents here were besieged with offers from responsible and irresponsible parties, anxious to have a share of some description in the Chinese loan."

As a result it is probable that over £10,000,000 was offered to China and this produced the result that China was not inclined to pay over 4 per cent for her loan. It is no doubt that a £1,500,000 gold loan will be issued here early in September. The loan will probably consist of 4 per cent thirty year bonds and at the least two-thirds of this loan will be paid to China in silver.

AN EXPENSIVE LUXURY.

This Country Spending Money in Samoa Without Any Return.
WASHINGTON, Aug. 17.—Senator Gray, of Delaware, who has been acting as chairman of the senate committee on foreign relations during the absence of Senator Morgan, has interested himself to a considerable extent in the Samoan island, especially in the harbor of Pango-Pango.

Some time ago he secured the adoption of a resolution which brought before the senate all the correspondence which has been written on the subject of Samoan affairs. It includes a great amount of letters and it is probable that Senator Gray is the only man that has read it. The Delaware senator says that the report discloses just what he anticipated and believed that the United States is paying out a great deal of money to maintain and to carry out a tripartite agreement which results in protecting a German mercantile port, from which this country does not derive any benefit whatever.

Asked as to the improvements that have been made recently in the harbor of Pango-Pango, Mr. Gray says that this country has not expended any great amount of money upon it, and on the other hand has done scarcely nothing there in the way of improving it. He does not think any such step is in contemplation by this government although he says now that the United States has the use of the harbor and supposes it will retain it.

A New Railroad Opened.
WASHINGTON, Aug. 17.—Clifford Smythe, consul of the United States at Cartagena, Colombia, has informed the state department of the completion and opening for traffic of the Cartagena-Magdalena railroad on July 20. This road is an American road and runs south through the republic of Colombia for about sixty miles to the town of Cotonar on the Magdalena river, and is expected to revive the former commercial importance of Cartagena, which is said to have one of the best harbors on the South American coast.

Reached Gray Gables.
BUZZARDS BAY, Aug. 17.—The light-house tender John Rogers with President Cleveland and party aboard anchored off Gray Gables at 10 o'clock this morning. The party went ashore immediately and reached Gray Gables at 9:35.

A STARTLING SPECTACLE.

An Acrobat Descends Safely from a Burning Balloon.

ROCKAWAY BEACH, L. I., Aug. 17.—An extraordinary spectacle, that of a balloon on fire at an elevation of 2000 feet above the earth, the hurried preparations of an aeronaut to abandon his air ship and his descent with a parachute in safety to the ground started thousands of horror-stricken spectators here last evening.

Professor Williamson made the ascent from the Seaside hotel grounds. He took with him a small red and white parachute, to which a little fox terrier dog had been attached. When about 900 feet from the ground the spectators noticed volumes of smoke rolling from the balloon, which began to pitch and toss in a way that threatened to upset the basket.

The professor did not seem to lose his courage for a moment. At an elevation of 2000 feet the balloon began to turn and Williamson cut the cords, and abandoned it. The parachute filled and he began to fall slowly. Soon afterward he released the second parachute and man and dog came down to the ground safely.

WILL BUILD A NEW YACHT.

The Report that the Goulds Will Build a Yacht Confirmed.

RYDE, Isle of Wight, Aug. 17.—In spite of the denials which followed the exclusive announcement by the Associated Press that George J. Gould was ordering a new Herreshoff racing yacht, the statement then made was perfectly confirmed.

It is true that actual work on the new yacht will not be started until the negotiations which are now known to be pending result in a challenge for the America's cup. Talking to Mr. Jameson and Capt. Carter on board the Britannia the other day, Mr. Gould said:

"As soon as I know that a challenger is building here I shall order a boat to meet her." The Messrs. Gould will return to the United States in October, but they will revisit England in February next and thereafter they will live very much in England.

CONGRATULATION TO HAWAII.

Resolution to Be Reported By the House Foreign Affairs Committee.

WASHINGTON, Aug. 17.—After a spirited session of the house committee on foreign affairs, a congratulatory joint resolution from the United States to the new republic of Hawaii was adopted by the house for the first time in its history. The resolution is as follows:

"Resolved, that the senate and the house of representatives of the United States of America do congratulate the republic of Hawaii on the peaceful assumption of the powers, duties and responsibilities of the government as indicated by the recent adoption of a republican form of government."

THREE BANDITS WERE KILLED.

They Were Discovered by Officers With a Band of Stolen Horses.

CHILPANCIINGO, Mex., Aug. 17.—In a fight between rurals and bandits near the town of Tisocachistlanpanca in this state, three notorious outlaws named Crescencio Juarez, Pedro Francisco and Juan Romero were killed. The fight was a desperate one.

The robbers were discovered by the government scouts with stolen horses in their possession and before they could make their escape, they were surrounded. The bandits opened fire but within a few minutes were all dead.

Food for China.

SAN FRANCISCO, Aug. 17.—The City of Peking which sailed for Japan and China had a large amount of freight among which was considerable flour. For China there was 16,489 barrels of flour, 1000 pounds of meat, 187 cases of canned meats, 11,250 pounds of pearl barley, 746 pounds of provisions. In the steerage were two young Japanese who were going home to become petty officers in the Japanese navy.

A Lynching Thwarted.

BRISTOL, Tenn., Aug. 17.—A number of moonshiners in Russell county attempted to lynch C. E. Clapp, a deputy United States marshal, but were thwarted in their purpose. Clapp, it is said, had been one of them, but had been appointed marshal. Most of the men who attempted the lynching are now in jail.

Murder in Tennessee.

BRISTOL, Tenn., Aug. 17.—David Hall, of Jonesville, Va., 72 years of age, was met in the road by Tim Denny, an 18-year-old boy, who shot and killed him. Hall had indicted Denny for abusing his child and the latter took his revenge in the manner stated.

Michigan Bank Suspended.

LUDINGTON, Mich., Aug. 17.—The Commercial and Savings bank of this city suspended business today by order of its president, Antoine E. Carter. The bank has been in a precarious condition for some time. The officers will say nothing about its condition as yet.

IN THE SENATE

Fight Over Motion of Senator Harris to Put Senator White on the Finance Committee.

After a Heated Discussion He Changed It to a Resolution and It Went Over.

Senator Murphy Introduced a Resolution Declaring Against Any More Tariff Legislation This Session.

He Wanted Immediate Consideration, But Senator Cockrell Put in an Effective Objection to It.

WASHINGTON, Aug. 17.—The senate finance committee met at 10 o'clock to further consider the free sugar and other separate tariff bills referred to it yesterday. The Republican members of the committee said they could not take the responsibility of reporting these bills and if the Democrats desired to have them reported, they must do it with their majority; that the Republicans had four members of the finance committee here and as the Democrats had but the same number they did not propose to have the Democratic four counted as five. The committee immediately adjourned.

The Democratic steering committee met in committee room immediately after the adjournment of the finance committee. They were not long in deciding upon Senator White, of California, and Senator Harris was instructed to present his name to the senate. While there was some opposition in the steering committee to the election of Mr. White, on the part of members who opposed the tariff bills, the majority was favorable to his selection. The conservative Democrats who oppose the selection base their objection largely upon the time that is taken to make it, and say that it should be allowed to go over until the choice can be made with deliberation and not to meet a temporary emergency.

The other members of the committee insist, however, that the emergency is such that the vacancy must be filled now, and that in view of the demand of the country for the passage of these bills and the attitude of the Republican members of the finance committee it is essential that immediate steps be taken.

At the opening of the session of the senate a vacancy occurred over the attempt of the Democratic majority to fill the vacancy in the finance committee necessary to act on the free coal, iron ore, barley and sugar bills. As soon as the reading of the journal was completed Mr. Harris, on behalf of the Democratic steering committee, moved the election of Senator White, of California (Mr. White) be appointed to fill the vacancy caused by the death of Senator Vance, of North Carolina.

Mr. Chandler jumped on his feet and interposed an objection. The objection it sustained would carry the motion over until tomorrow.

Mr. Harris made the point of order that his motion was privileged because it looked to the organization of the senate. A long and lively debate followed on the point of order. The rule he maintained, was plain. He called attention to the fact that the vacancy on the finance committee had existed for months and that it was proposed to fill it now at the very close of the session.

Mr. Harris declared hotly that it was the first time he had heard an objection on the point. In the eight years he had been a member of that body, no matter what party was in power, the majority named at will the members of the several committees of the senate and no voice was heard in objection. The course of Mr. Chandler he condemned as the most revolutionary of revolutionary suggestions and it was received by him with such astonishment that he confessed he could hardly restrain himself.

Senator Harris finally withdrew his motion for the appointment of Senator White to the vacancy of the finance committee, and later put his motion in the form of a resolution and it will go over until tomorrow.

Senator Murphy offered a resolution to the effect that there should be no further legislation on the tariff at this session, in view of the Carlisle letter. He asked unanimous consent for its immediate consideration but it went over on objection by Senator Cockrell.

The conference report on the deficiency bill was submitted to the senate and agreed to. At 1:40 p. m., the senate adjourned till tomorrow.

The Republican senators are holding a caucus this afternoon to consider the question of party action with reference to the appointment of a member of the finance committee which is to be discussed freely with reference to the free sugar bill and other supplemental bills. It appears the sentiment in the party is divided, and especially on the question of opposing Senator White's appointment to the committee.

Objection to Porter.

WASHINGTON, Aug. 17.—The senate committee on the judiciary has made an adverse report to the senate on the nomination of Hon. James D. Porter, to be United States judge of the Eastern and Middle districts of Tennessee. It is understood that the opposition is based upon the ground that Mr. Porter, while a resident of the state, lives outside the district over which he was appointed to preside.

STILL HANGING FIRE.

The Investigation Into Alleged Timber Stealing on Indian Reservations Has Not Made Much Progress.

More Than a Year Since Secretary Smith and Commissioner Lamoreux Took Up the Matter.

Maj. Baldwin Says He Will Devote Some Time to the Subject After Congress Adjourns.

WASHINGTON, Aug. 17.—[Special to The Herald.]—The investigation as to alleged timber depredations of the Indian reservations in Minnesota, which Representative Baldwin started in nearly two years ago to have investigated, is still hanging fire. It is more than a year now since Secretary Smith and Land Commissioner Lamoreux took the matter out of Representative Baldwin's hands and emphatically asserted that they would have the whole thing thoroughly investigated, and if there were any frauds perpetrated the whole subject would be ventilated.

Since that time it cannot be ascertained that any reports even have come from Minnesota in reference to timber stealing that many people are perfectly satisfied was going on at one time and probably is now. It cannot even be ascertained that Secretary Smith or Land Commissioner Lamoreux have been investigating.

It will be recalled that Secretary Smith discharged all the Republican members of the timber commission of Minnesota and appointed Democrats in their places. Nearly all of these new appointees, it will also be recalled, came from Georgia. Baldwin, after a fierce fight, succeeded in getting five Minnesota appointees, and what Georgia did not get after that they doubtless will find no obstacle in their way in so doing.

Representative Baldwin claimed to The Herald correspondent the other day, however, that he has by no means given up the plan to have the whole thing adjusted. He says that after Congress adjourns he will devote some attention to this question at the interior department.

The senate has taken a decided stand against junketing committees during the session, and the committee on contingent expenses has made adverse reports upon the resolutions to permit the committee to make a visit to the Pacific and the committee on patents to investigate irregularities in that system by visiting various parts of the country and inviting Congressmen to accompany them.

The committee on commerce had planned a trip to Los Angeles for the purpose of passing upon the relative merits of Santa Monica and San Pedro as places for a deep water harbor. There has been a spirited contest between the two places, and the committee, finding trouble to decide between them when the river and harbor bill was under consideration, postponed decision until inspection could be made. It will probably not take place this year. The committee on rules will sit during the session.

The discovery of errors in the new tariff bill, which may result in suits to be settled only in the courts, brings out the importance of punctuality in legislation. It will be remembered that there was an

error in the confectionery schedule of the McKinley law, which made a great deal of difference in the amount of duty to be paid on candies. This was due to the misplacing of a parenthesis. In the bill now before the president, the fact that a semicolon appears where it was intended that a colon should be placed has already caused quite a controversy as to whether diamonds shall be admitted free or will have to pay a duty of 25 per cent for cut and 20 per cent for uncut stones.

In the bill in the free list there is a semi-colon after the word "seeds" where there should be a colon and if the diamonds are admitted free under this error, then everything that could come under the word seeds would be admitted free when it is intended that only a few varieties named in the bill shall be admitted. The assertion is made that the construction placed upon the law by the treasury officials will not govern the admission of these articles but that the intent of the law will govern, but the courts probably will be called upon to construe the law and the construction of the courts will stand after a test case has been made and decided.

It is also said that the corrections can be easily made, but it was found to be a difficult case to get punctuations correctly when the McKinley law was to be changed in this particular, and it is quite probable that there will be considerable difficulty encountered in this case. The proposition to make these changes is very likely to be loaded down by other tariff amendments. There are gentlemen who will make an effort to put free sugar bill on every proposition that comes up to amend the tariff bill and even to correct these punctuation errors, and also upon the proposition to correct that mistake which will allow alcohol in free for the arts.

Would Relieve Congressmen.

WASHINGTON, Aug. 17.—Representative Bailey, of Texas, desires to visit the interior department at the close of the session. Yesterday he introduced the following bill: That from and after the passage of this act no senator or representative in congress shall directly or indirectly solicit or recommend the appointment of any person to any office under the United States. Provided that this act shall not be construed to apply to the offices of the house or the senate.

REMISSION OF REBATES.

The Interstate Commerce Commission and the Alchison Charges.

WASHINGTON, Aug. 17.—The interstate commerce commission has had under consideration for some time the charges of remission of millions of dollars of rebate to the shippers on the Atchison, Topeka & Santa Fe in violation of the interstate commerce laws. The charges were the subject of a thorough investigation by the commission, a clerk from the commission, who was detailed by the commissioners to make an examination in New York city.

The inquiry has been completed and Mr. Marchand has returned to Washington and submitted his report to the commissioners and the matter has since been frequently discussed at the commission's sessions. Col. William R. Morrison, the chairman of the commission, said today that the report embodied practically only the facts brought out in the statement of Expert Little.

"The offense," he said, "is a very common one and there are several other roads which are guilty of the same offense. It is a very difficult matter to prove the guilt, as both the roads and shippers are involved in the guilty transaction and as such are naturally disposed to make any revelations. Both the railroads and officials and the shippers are involved in a recent decision by Judge Grosscup in Chicago from giving testimony incriminating themselves.

"We cannot take any action except of our own process save to forward to the district attorney anything that is brought to light. The prosecution must be carried forward in these cases by the courts and the courts will have to decide upon the facts and the evidence. The matter is still under consideration by the commission, which is also conducting correspondence with a view of obtaining facts and evidence of alleged similar violations on other roads.

CUTTING INSURANCE RATES.

The Union Will Expell a Pacific Coast Manager.

SAN FRANCISCO, Aug. 17.—The Chronicle says: George H. Turner, the Pacific coast manager of the Northwestern National Insurance company, of Milwaukee, Wis., expects to be expelled from the Pacific insurance commission on next Tuesday. He learned that his case was to come up from Manager Stillman. The reason of his expulsion is that he is charged with paying excessive commission, writing insurance on large concerns at smaller rates, that he would not obey the union's rules, and failing to pay the other criminal offenses.

When questioned about the matter, Mr. Turner said: "Yes, I believe I am to be expelled and if I am I will make it hard for them to do so. I have been a member of the union for many years and I have always been a good member. I have always been a good member of the union and I have always been a good member of the union."

Mr. Turner has always been something of a thorn in the compact rates, and the president of his company, Alfred James, has been a thorn in the compact rates. The matter has been discussed at considerable length by the underwriters. On Tuesday next formal notice will be sent to Mr. Turner to appear before the commission and to explain his position.

Charges Against Capt. Brown.
Complaints were entered before United
States Court Commissioner T. H. Pres-
nell yesterday by Louis Wagner and
Charles Berdie against Capt. Brown, of
the steamer Kearsage. They allege that
there is \$750 apiece due them as
seamen. They also charge him with
failing to present shipping articles to
them to sign before they sailed. This
latter is quite a serious charge, a heavy
fine being possible under the law. It is
a regulation which is more or less dis-
regarded by vesselmen, however.

A Lost Child.
Laura Hannel, the 2½-year-old
daughter of George and Alice Hannel,
residing at 216 Seventh avenue west,
strayed away from her home this morn-
ing. The police have been notified, but
up to this afternoon had seen nothing of
her. The child wears a straw hat, pink
dress and russet shoes.

SENATE'S SENSE

The Senate Resolves That no Further Tariff Legislation Should be Considered at This Session.

Murphy's Resolution, Which Also Declared in Favor of an Early Adjournment, Adopted Without Debate.

Nine Democrats and the Populists Joined With the Republicans in Voting for the Resolution.

The Manderson Amendment Providing for the McKinley Bounty in the Free Sugar Bill Carried.

WASHINGTON, Aug. 18.—When Senator Harris resolution for the appointment of Senator White, of California, to the vacancy on the finance committee, was laid before the senate at 12:15, Mr. Manderson said there would be no objection to the resolution today and explained that the opposition yesterday contained no reflection on the Californian. Mr. Hill concurred with Mr. Manderson, expressing the hope that the resolution would be passed. It was then adopted without division.

The Murphy resolution declaring against further legislation went over temporarily, at the request of Mr. Gorman.

The resolution of Mr. Gray, instructing the finance committee to report back the free sugar bill with an amendment to strike out the one-eighth differential on refined sugar, was laid before the senate. Mr. Manderson offered an amendment instructing the committee to report an amendment to provide for the sugar bounty of the existing law.

Mr. Gray demanded a division of the question. Some debate occurred on the parliamentary situation.

Vice President Stevenson held that the vote should be first taken on Mr. Manderson's amendment to instruct the committee to report back an amendment to the free sugar bill providing for the McKinley bounty on raw domestic sugars. Great interest was manifested in the result of the roll call. The two Louisiana senators and three Populists voted in favor of the Manderson amendment. The Manderson amendment providing for the McKinley bounty in the free sugar bill was carried, 21 to 20.

The point of no quorum being raised, the roll was again called. The call developed the presence of fifty-four senators, eleven more than a quorum. At the request of Senator Gorman the Gray-Manderson resolution was temporarily laid aside, Senator Aldrich stating that he thought a voting quorum would appear in two hours.

Senator Murphy then called up his resolution declaring against further tariff legislation at this session.

Mr. Murphy offered an amendment to his resolution declaring it to be the sense of the senate that no further tariff legislation should be considered at this session and that it was advisable to adjourn at the earliest possible moment. Without a word of debate the vote was taken on the resolution as modified. The resolution was adopted. The vote in detail was as follows:

Yeas—Aldrich, Allison, Blanchard, Caffery, Carey, Chandler, Cullom, Davis, Delplie, Gallinger, Gibson, German, Jones (Nebraska), Kyle, Manderson, Mitchell (Oregon), Murphy, Patton, Parker, Pettigrew, Platt, Pugh, Quay, Roach, Shoup, Smith, Stewart—Total, 27.

Nays—Bate, Berry, Blackburn, Cockrell, Coke, Faulkner, George, Harris, Hutton, Jarvis, Lindsay, Ransom, Turpie, Vest, Vilas, White—Total, 16.

A great deal of confusion followed the announcement of the vote. Mr. Lindsay offered a resolution expressing it to be the opinion of the senate that congress should not adjourn until a bill had been passed relieving and discontinuing any duty on refined sugar which would operate for the benefit of the sugar trust. He asked for the immediate consideration of the resolution.

Mr. Manderson moved to amend the resolution so as to instruct the finance committee to report back the amount of profit to be derived by the whisky trust from the tariff bill now in the hands of the president.

Mr. Sherman took the floor to indulge, as he said, in some "plain talk." He reviewed the blunders made by the Democrats in the general conduct of the long tariff fight but the result of the blunders in detail, Mr. Sherman said, was that fifty to 100 very important efforts would be found in the bill as it would be signed by the president. Already several of great importance had been discovered. One of them, that providing for the free entry of alcohol used in the government \$200,000 to \$100,000, the government annually. Mr. Hoar, the author of the amendment, Mr. Sherman asserted, had no opinion that it would be

accepted. He simply offered it as a tenable proposition.

Mr. Sherman deprecated the contemplated conference of the present congress but he justified Mr. Carlisle's letter as to effect of the tariff bill on the revenues. He stated that he would, if offered opportunity, vote for a straight duty on raw and refined sugar without the differential. As far as the other bills were concerned, he was opposed to placing iron ore, coal and barbed wire on the free list.

Mr. Gray, who followed Mr. Sherman, thought that no matter what the result of the coming election might be, it should not interfere with the senate's making laws.

Mr. Harris then called up the house bill to repeal the tax on alcohol used in the arts. He asked unanimous consent to consider it but Mr. Chandler objected and moved to refer it to the finance committee. The motion was lost, 14 to 25, no quorum voting. The clerk then proceeded to call the roll.

Only two more than a quorum answered and, after the passage of the bill for the relief of Oklahoma settlers, the senate at 2:25 went into executive session.

LOST HER CENTER BOARD.

The Vigilant Could Not Race With the Britannia Today.

FRESH WATER GATE, Isle of Wight, Aug. 18.—The match race between the prince of Wales yacht Britannia and the Gould boat Vigilant is off. The boats left Totland bay for the starting point shortly before 11 a. m. The wind had shifted after the setting out, so that the prospect of what was intended should be a beat to windward 15 miles and a run home would become a run to leeward and a beat back.

However, before the starting gun was fired, the Vigilant was seen to haul her keel had been discovered and the race could not be sailed. Much interest had been manifested and the queen had gone aboard her yacht the Osborn to watch the progress. The prince of Wales was on the Britannia, and while the Vigilant sailed with the Britannia the Atlanta carried his family and numerous friends. Great disappointment was felt.

The accident to the Vigilant consisted of the loss of her center board.

SIX WERE DROWNED.

Heavy Gale on the Yukon and a Steamer Badly Damaged.

PORT TOWNSEND, Wash., Aug. 18.—Advices from the Yukon river up to July 1 have been received here as follows: Capt. Lyon, of the steamer P. B. Wear, and four others were capsized and drowned at Five Finger rapids. Sixty pounds of mail were also lost.

The steamer Arctic, which was used as a freight tender on the Upper Yukon, was caught in a gale 60 miles from St. Michael's island and badly damaged. The vessel was compelled to return to Cape, and there is no other available vessel to take supplies to mines on the Yukon river.

There are 1100 miners there and if freight is not sent at once it is feared that much suffering will ensue. Missions and trading stations along the Lower Yukon river were greatly damaged.

A MISSING MAN FOUND.

Banker Nicholf, Who Left a Big Shortage, Arrested in Illinois.

CHICAGO, Aug. 18.—Banker C. L. Nicholf, who disappeared from this city a year ago, leaving a shortage of \$109,114 in his bank's accounts, has been arrested at Brighton, Ill.

Nicholf, with his two sons, composed the banking firm of C. L. Nicholf & Co., and his assignment, which was made after the father had fled, leaving the institution badly crippled, and the sons went to Canada. The father has been hidden for a year on the lake.

His relatives claim he is not responsible for his actions, having been injured by falling on his head four years ago.

DRIVEN OUT BY WOMEN.

Two Dissolute Women Horsewhipped by Fifty Iowa Women.

MINNEAPOLIS, Minn., Aug. 18.—A Sioux City, Iowa, special to the Journal says: Two dissolute women went from here to the little town of Dalton, to live in the outskirts of that place, a few days ago.

Last night about fifty women raided a harness store, got at the whips, went to the house and drove the women through the streets, lashing them unmercifully, and out into the country, warning them not to come back.

MERCHANTS WERE SWINDLED.

A Fraudulent Scheme That Was Worked in North Dakota.

MINNEAPOLIS, Aug. 18.—A special to the Journal from Kolla, N. D., says: Attachments against the property of W. W. Allen and wife, of St. John, N. D., were served yesterday.

Through the standing given by a commercial agency, obtained by false reports, Allen has secured thousands of dollars worth of merchandise of various kinds. The scheme was one of the most fraudulent ever unearthed in North Dakota. Allen and his wife absconded this morning.

Was Walking to Washington.

BRISTOL, Tenn., Aug. 18.—A queer journey was suddenly brought to an end when a train on the Norfolk & Western road struck a woman.

Here, Mrs. M. M. White, 75 years old, left Plattsburg, Miss., a few days ago on foot for Washington. She reached this morning and mailed a letter to her son in place and mailed a letter to her son in place and mailed a letter to her son in place.

A few hours later her mangled corpse was picked up and some papers in her pocket showed that she was going to Washington to see about land claims and a pension.

HARRISON TALKS

The Ex-President Interviewed in New Jersey on the Leading Questions Now Before the Public.

Would be Bad Taste to Draw Comparisons Between His Own and Mr. Cleveland's Administration.

Will Prepare an Analysis of the Tariff Situation and Speak in Indiana This Fall.

Harmony Among the Republicans in New York Still Lacking and Outsiders Should Not Interfere.

NEW YORK, Aug. 18.—The Commercial Advertiser today prints the following interview with ex-President Harrison at the house of Capt. Barnhart, at Spring Lake, N. J., Thursday: "My position is a peculiar one. It is hard for people to understand how I am situated. My lips are necessarily sealed so far as criticism of this administration goes. It would be in very bad taste or form to draw comparisons between my own and Mr. Cleveland's administration. It would be highly discourteous for me to state wherein I believe this administration errs. Therefore I have uniformly refused to express any opinion, to draw any comparison or to criticize, and shall continue that policy."

"Should you not have something to say about the new tariff bill?"

"That is a different matter. That measure is not fathered by the administration, as I understand it, and is a legitimate matter for discussion. But I am not yet ready and I do not wish to speak hastily of a matter that so intimately concerns the welfare of the party and country and goes to the very root of our prosperity as a nation. Later I shall prepare a careful analysis of the situation, and shall speak to the people during the Indiana campaign. I shall speak several times. Some things that I say may be worth printing."

"When will the campaign open in Indiana?"

"Locally it opens very soon now. But the great battle will not begin until the fall is well advanced."

"Do you confidently expect Republican success there?"

"I would be premature to predict."

"What do you think of the situation in New York state?"

"I think that the situation in New York state demands that every man outside of the state keep his hands off. That is what I think. Let outsiders keep their hands off and attend to their own business. I don't see how anything that I or any other outsider can say in the way of encouragement can help restore harmony. All that I know about the situation I read in the papers, and I know that the harmony of which you speak, has not yet been secured and that the two wings of the party still maintain separate organizations, and are as far apart as ever."

"Suggestions, advice, or talk of any kind from outsiders would be impertinent and ill advised. Of course the result in New York this fall will have a mighty influence upon national affairs."

"Since the conclusion of the Hawaiian incident removes the question from the field of politics, possibly you would not mind stating whether you consider the contingency of annexation settled for all time?"

"To answer that question would be an assumption of superior knowledge akin to prescience," was the reply. "Hawaii is now an independent republic. What her future may be no man can predict. I will say this, though: Had the Hawaiian crisis come six months earlier, the result would probably have been different."

"However," added Mr. Harrison, "I do not wish to pass strictures upon this administration. I do not wish to impugn motives."

"After the Indiana campaign closes shall you return to California to resume your lectures in Stanford university?"

He answered, speaking slowly: "I do not know that I shall return to California this winter. When I left there was with the understanding that I might resume the lectures this winter, and then again that I might not. It rests with my state whether I shall continue my present relations with the university or not, and I have not yet made up my mind. I don't know how many students may be enrolled this year. I have not the slightest idea how the suits against the Stanford estate and the Southern Pacific may affect the finances of the college. The institution was very prosperous last year."

"What do you think of the condition of the country and the chance of the return of the business prosperity?"

He gave the reply that he had not been able to guess the future and could

say more about business prosperity next year.

COXEYITES TO BE PARDONED.

The Governor of Maryland Pardons Them if They Leave the State.

BALTIMORE, Aug. 18.—At a conference between Governor Brown, Attorney General Poc and counsel for the 100 imprisoned Coxeyites, it was agreed that the governor would pardon all hands excepting Christopher Columbus Jones and Marshal McKee, who will be held for the purpose of testing the right of the state to take the army from their camp and imprison them without trial.

Jones and McKee will be held because of their refusal to accept the pardon offered by the governor, conditioned upon their leaving the state.

DEMOCRATS IN CAUCUS.

Democratic County Committee Decided to Hold the Convention on August 30, Primaries August 28.

The Democratic county committee met at the Spalding at 2:30 this afternoon. Chairman Bowen called the members to order, after which Secretary F. L. Ryan called the roll. A claim was made that T. T. Hudson was not a member of the committee. He claimed that he was chosen as a member of the committee by the committee itself and that, if he was not a member, then Mr. Bowen himself was not.

Mr. Bowen stated that, as he remembered, he was the only one chosen in addition to the twenty members regularly chosen.

John G. Brown claimed that it was on a motion of his that Bowen was made chairman and that Hudson was also appointed a member.

Mr. Bowen admitted that Mr. Hudson belonged to the executive committee but said that he never heard before that Hudson was a member of the regular county committee.

Mr. Gridley questioned the right of the committee to add to the committee membership without authority of the convention itself.

W. H. Tripp started to give a page from his experience as a politician but was called to order on the point that he was not talking on the question.

"It is not disputed that you are on the committee," said Mr. Tripp.

"No," replied Mr. Bowen.

"No one questions that Mr. Hudson is a member of the committee," continued Mr. Tripp.

"Yes there is, I question it," exclaimed Mr. Bowen.

John G. Brown said Mr. Bowen had just the same rights as the other members of the committee.

"Mr. Brown take the chair," said Mr. Bowen.

"I decline," said Mr. Brown.

C. F. Maginnis moved that Mr. Hudson be recognized as a member of the committee. The motion prevailed without a dissenting vote.

"I move that the county convention be held Aug. 30; to choose delegates to the county convention, which shall elect a county ticket and choose delegates to the judicial, congressional and state conventions," said Tripp. That motion prevailed. Mr. Tripp again arose and moved that the primaries be held Tuesday evening, Aug. 28, at 7:30 o'clock.

F. L. Ryan amended the hour, making it 8:30 o'clock. The motion as amended prevailed.

Mr. Bowen favored fixing the representation at one delegate to each vote precinct and one for each 100 votes or major fraction thereof cast at the last general election for Cleveland.

Messrs. Maginnis and d'Autremont thought that arrangement would not be fair to lobbying and other places that cast no votes at the last general election. That idea was incorporated in a motion with a provision that Mesaba Mountain and Virginia village have one delegate each, which will give about 113 delegates. The motion prevailed.

Lake and Rail Rates.

BUFFALO, Aug. 18.—At a meeting of the Lake Line Managers' association it was resolved that eastbound lake and rail tariffs from Lake Michigan and Lake Superior of April 2, 1894, be restored and maintained, and that the tariffs from Minneapolis issued by initial rail lines be maintained on the basis of 22½ cents per 100 pounds from Minneapolis to New York. This will probably settle the rate troubles of the lake lines.

A VAIN SEARCH

The Chinese Say Their Northern Squadron Has Searched in Vain For the Japanese Fleet.

Japanese Say Their Fleet is Hunting For the Chinese Fleet to Engage in Battle.

Corean Soldiers Fought With Japanese at Yashan by Order of the King of Corea.

In Event of Japan Requiring a Loan It Will be Raised Entirely in That Country.

LONDON, Aug. 18.—A dispatch to the Times from Tien Tsai says the northern Chinese squadron has vainly searched the gulf of Pe Chi Li for the Japanese war ships. The German gun boat Wolf has arrived at Tien Tsai.

A dispatch from Yokohama says: It is officially stated that the Japanese fleet, which consists of seventeen vessels, is hunting for the Chinese fleet with the purpose of engaging it in battle. The Japanese troops in Corea have been ordered to occupy all the passes on the China-Corean frontier and to prevent at all hazards the entry into Corea of Chinese reinforcements.

A dispatch to the Pall Mall Gazette from Seoul says that a remarkable fact was revealed upon the occasion of the engagement between the Chinese and Japanese troops at Yashan, when the former were defeated. A number of Corean soldiers, by special order of the king of Corea, accompanied the Japanese troops. Some fled when the fighting began but it is added, the majority fought with great bravery.

The Japanese legation has not received any news from Japan tending to confirm the report that an imperial decree has been issued authorizing the loan to Japan of \$50,000,000. It was stated at the legation that in the event of a loan being required it would be entirely raised in Japan; that it would not be placed upon any European markets.

Death of a Baron.

CHICAGO, Aug. 18.—Herr VanBenhen, a Hollander of distinguished lineage, who for a quarter of a century had lived in seclusion in Kansas, died on a boat in Chicago harbor. The dead man was by right a baron of the Netherlands. His sister is the Baroness VanVoors living at The Hague. His birth gave him a right to a peerage, but by the curious manipulation of titles in the Netherlands he was declared a pretender and came to America, purchasing 1000 acres of land near Lincoln, Kan. His wife was with him when he died.

Economy at Washington.

WASHINGTON, Aug. 18.—By a statement made by Disbursing Officer Evans to the department of agriculture, the statements show a reduction of more than 14 per cent in the expenditures of the department during the fiscal year ending June 30, 1894. As a result more than \$500,000 will be covered back into the treasury out of the appropriation for the fiscal year.

Russian Admiral Shot.

ST. PETERSBURG, Aug. 18.—Admiral Rastvoroff in command of the naval forces at Cronstadt has been shot and killed by a discharged employe, who fired upon him with a revolver while he was driving from his office. The assassin then blew out his brains.

Will Become a Law.

WASHINGTON, Aug. 18.—Unless the president is heard from in the shape of a veto tonight, the river and harbor appropriation bill, through the expiration of the ten days allowed for consideration, becomes a law.

CLAIM TO BE AGENTS.

Beck and Morey Assert They are Innocent Employees of Morrison.

C. M. Beck and C. L. Morey, the Rainy Lake Improvement company agents, who allege that they are the innocent employees of "Clifton Morrison," were arraigned in police court this morning on the charge of criminal conspiracy. They waived a jury, pleaded not guilty and their examination was set for Monday.

Sidney Thompson, the St. Paul & Duluth brakeman accused of assaulting Charles Jackson, was arraigned on the charge of assault in the second degree. The examination was set for Aug. 21.

W. R. Davis, charged with vagrancy, paid the costs and the case was dismissed. John Brooks, drunk, received a suspended sentence. Axel Jupond paid \$12 penalty for a similar offense.

Matt Kaiders was up for having in his possession a fawn which he secured near his farm out in Gresham township. Sam Fullerton, deputy game warden, who made the arrest, thinks that the defendant has been hunting deer but is unable to prove it. Judge Powell imposed a fine of \$50 or sixty days in jail. The defendant was committed.

Has a Chronic Trouble.

Dr. Magie on behalf of the St. Paul & Duluth road, examined Charles Jackson, the man who was assaulted by brakeman Thompson. The only mark or bruise he found on him, was one over the eye. His spinal trouble comes from some chronic disease, either of the spinal cord or of the kidneys and an abscess has evidently formed. It is in no way connected with the fracas, says Dr. Magie.

CHINA IS CONDEMNED

The Emperor of Japan's Formal Declaration of War Tells About the Trouble Over Corea.

Charges That China's Every Act Regarding Corea Has Been a Breach of Good Faith.

Claim is Made That China Desires to Overthrow Corea's Ruler and Degradate That Country.

VANCOUVER, B. C., Aug. 18.—The steamer Empress of Japan has arrived from the Orient. When on the way between Hong Kong and Yokohama the steamer struck a monster whale cutting it almost in two. Parts of the animal stuck to the vessel and had to be taken off, as they impeded the progress of the vessel. The formal declaration of war as published in the Japan Official Gazette reads as follows:

"We, the emperor of the empire of great Japan, having ascended to the throne by virtue of the lineal succession unbroken for ages eternal, fully assured of heavenly aid, do announce to all our brave and loyal subjects that we hereby declare war against China. All our officials and officers, with a view of the carrying out of our interests, should devote themselves to warlike matters or to carrying on the war with China, and in all respects strive to further the national object. They are desired to leave nothing undone, but on the contrary to use every means to this end within the limits of their respective offices in a manner not prejudicial to international law.

"Over two years have now elapsed since our accession to the throne. During this time we have consistently pursued the policy of peace, being deeply impressed with the sense of the instability of being in strained relations with other nations and always endeavoring to promote friendship with all the other powers. Fortunately, our intercourse with the nations has been intimate and friendly, every act of China toward this country in connection with the affairs of Corea has been opposed to the principles that should govern the relations to friendly nations and has been a breach of good faith towards us. Corea was first induced by Japan to open its doors to foreign intercourse and to take its place among the nations of the world, yet China has always described it as her tributary and has both openly and secretly interfered with its internal affairs. On the recent insurrection broken out in the peninsula, China on the pretext that she meant to protect her tributary from calamity, sent troops thither.

"We by virtue of the convention of 1865 dispatched troops to Corea to deal with the emergency and we also have made efforts to relieve Corea from internal disturbances and maintain peace in that country to secure the peace of the East. We asked China to co-operate with us to that end. China, however, on various pretexts, declined our request. We thereupon advised Corea to remedy the abuses in her administration and strengthen the guarantees of domestic peace and other guarantees, while retaining her privileges as an independent nation.

"Corea adopted the suggestions of this country. China, however, offered every obstacle and caused delay, and moreover began the preparations on land and sea with a view to war. On the completion of her preparations she attempted to achieve the height of her ambition with reference to Corea, dispatching more troops to that country and attacking our men in the Korean seas. She thus acted toward Japan in an exceedingly lawless way.

"It is now beyond doubt that the theory of China is to destroy the authority responsible for the maintenance of peace in Corea and to degrade into obediency to Japan and destroy forever all assurance of peace in the past. Judging from the actions of China so far, her scheme must have aimed at the sacrifice of peaceable guarantees and the accom-

Royal Baking Powder

Absolutely Pure

Though it has always been our desire to maintain peace with all nations, and in doing so, to display the glory of our empire at home and abroad, we have not receded from our determination to declare war, in the hope that we may be able to restore the peace in good time and thus to increase the prestige of Japan by the loyalty and bravery of our subjects.

Bad Forest Fires. VANCOUVER, B. C., Aug. 18.—Disastrous forest fires have again broken out in the Slogon mining district. Thursday night a fierce gale swept down the canyons and fanned the smoldering embers into raging flames. The buildings of the Noble Five and New Dead Man mines were in the path of the flames and were destroyed.

For Stealing Jewelry. NEW YORK, Aug. 18.—Albert Perria, 31 years old, living with his family on East Ninety-third street, was arrested yesterday by detectives for the alleged larceny of \$10,000 worth of jewelry ten years ago from the jewelry firm of Nas, Greengrass & Co., San Francisco, who employed Perria as traveling salesman.

A Big Catch. HANNAH, Mo., Aug. 18.—N. L. Saunders caught with a trout line here in the Mississippi river an alligator gar 7 feet 4 inches long, and 10 inches round. This is the largest gar that has ever been caught with hook and line.

"SAM'L OF POSEN." M. B. Curtis Warmly Welcomed at the Lyceum Last Evening.

There had been great interest in the announcement of the appearance of M. B. Curtis at the Lyceum in "Sam'l of Posen" and the house was filled when the curtain went up last evening. It was the same Sam'l and yet not the same who appeared. The old Sam'l was identified by diamonds, but the present was a new creation of pink pearls and pigeon blood rubies. The story is practically the same, but the lines have been reconstructed and brought up to date. Strong originality and a clever wit is displayed and makes the performance interesting. Mr. Curtis plays the part of the drummer in a complete, thorough and consistent manner. The glib, good-natured drummer could not have been better portrayed.

Miss Albina DeMer as Celeste, the French odalisque, proved herself an actress of high merit. Her death scene was especially effective and as sensational as the part demanded. Her work with reference to her charming and cordial eyes of the women.

The entire company is good. Cordie Da Vega as Rebecca and Esther Moore as Ellen were excellent as were also Albert Delwyn as Winslow, W. D. Hubbard as Jack Cheviot and Charles Edwards as Con Quinn.

Tonight "Sam'l of Posen" will be repeated.

ONE WAS DROWNED. Andrew Ringdahl Met Death Yesterday—A Sailboat Capsizing.

Andrew Ringdahl was drowned in the bay yesterday afternoon as the result of a sailing accident. With four other employees of the Pioneer Fuel company Ringdahl started in a small sailboat to go to Connor's Point from Rice's Point. A squall struck the boat and she lay over, filling with water. The ballast in the bottom of the boat carried her down, and in a minute all were in the water.

A small tug lying at a nearby dock ran out and a raft and life preservers were thrown to the men in the water. All reached the dock in safety except Ringdahl, who sunk before assistance could reach him. He was a Norwegian, 25 years old and unmarried, and had no relations in this country. A search was commenced for his body, but it was unavailable up to this morning.

A Great Opera Company. It is definitely announced that the Marie Tavyard Grand English Opera company will open its season at the Park theater, Brooklyn, commencing with the week of Sept. 10.

Charles H. Pratt, will be due the distinction of having organized the most brilliant operatic organization in the amusement history of America. Mr. Pratt's ambition to present grand opera stronger in cast of characters and greater in magnitude than has ever before been heard in this country. Madame Tavyard's artistic triumphs in the past have brought her to wide fame, while the artists who will be in support have been selected from the best talent. The orchestra carried by the company will be under the direction of Senor Emrico Morrelli, from the Italian opera in Mexico and Havana. The company will visit Duluth before the year is out.

What do you take medicine for? Because you are sick and want to get well, of course. Then remember, Hood's Sarsaparilla Cures.

WOULD BE SLOW DEATH

The Western Baseball Clubs Will Not be Kept in the East After This Month.

Scheme to Transfer September Games From Poor Playing Western Cities to the East Killed.

Caylor Comments Upon the Downfall of the Famous Pitcher, Clarkson, Who Has Quit Playing.

Good business brains are as necessary to make baseball successful as they are in any other pursuit of the almighty dollar.

An instance that goes far toward proving this assertion has recently offered itself. The proposition was actually made and to some extent discussed to transfer all the September games of the eastern clubs of the National league as scheduled to the cities of the west.

In other words, it was proposed to keep the western clubs in the east, after they should have finished the games of their tour, till the end of the season.

Mr. Wagner of Washington, D. C., who is the originator of the idea, and who was once backed up in it by the Cleveland Indians, also would not have been adverse to the plan.

Yet, to show how far from a successful outcome the scheme remained it is not necessary to say that nearly every eastern club opposed it, although such an arrangement would have temporarily put money into their treasuries, and it would require a unanimous agreement of all 12 clubs to cause such a transfer to be made.

There is no doubt that every club in the league would temporarily benefit by such a change, but the after effects would be slow death to the game west of the Alleghenies. It took too long to build the game up after the late war to let a few unthinking grasping managers pull it down again in the middle sections of the Union.

It is true that, comparatively speaking, the attendance upon games is more spotty in the western cities. But it would be paying the case in a true light to say that the eastern attendance has been phenomenal, large, whooping, and the result is not to be to any decided extent.

Comparisons between the vast crowds that fill the eastern grounds and the meager attendance in the west make the western managers envious. But, inasmuch as the league divides its gate receipts equally between home and visiting clubs, the rich returns in the east keep the western clubs out of financial distress.

There are a number of reasons that can be assigned to the depression felt by the western half of the National league. The clubs have been disappointing in their play. But two of the four are in the first place, and the other two are in the last place in the race that the patrons placed them in prospectus last spring. The Cleveland's good start, followed by their great "Vogue" in May, cooled enthusiasm on Lake Erie quicker than a ton of ice could cool a cucumber. The chill was so great that the Cleveland rooters have since had a chance to warm up.

Chicago, too, was disappointed, and the western metropolises will not support a losing club. St. Louis and Louisville have nothing to attract the public or appeal to local pride. In Cincinnati, when its team was making that record of 11 straight victories, the crowd was so great that the city was almost as full as a cornucopia.

In that same old channel the "loom" collapsed as quickly as it came up. Pittsburgh, by far the best baseball city in the country, population considered, has been sorely disappointed. They had reason to expect a good showing from their team this season. The "braves" were extensively touted as the probable winners early in the year. But their pitchers went to pieces, and a team with poor pitchers is like a building that is built upon sand.

These are the main causes for the comparatively poor turnouts in the western National league cities. But other factors are at work tending to all that end. The labor troubles and financial distress have been felt more in the west. It is also the season when the public mind is turned to the war.

I have always contended that the policy of using the Sabbath to take in money at a baseball club's games was a mistake. It has been a mistake, and Sunday ball playing has done much to keep the game unpopular in western cities.

On a certain class of people whose patronage should be courted. There is no more reason for opening the ball parks on Sunday than there is to open the race tracks on that day. In referring to Sunday games I am discussing the question purely in a business sense without reference to the moral issue.

But there is deep bad dissatisfaction with the particularly poor showing made in attendance at the Cleveland games. There is no secret made of the club owners' desire to get out of the business on that account, and his attempt to end last winter will probably be remembered with better success after this season ends. If Cleveland's franchise be sold and transferred, Buffalo, Detroit and Indianapolis will each make bids. Buffalo would get it without doubt were it not for the city's population and the fact that it is farther west would give better satisfaction to the suburban maker.

Of course this talk of weakness in the west gives rise to the old story that there are to be western and eastern circuits next year—that is, the National league will split, and the international games should be continued. There is no prospect of a return to the old circuit club circuit, with Chicago, Cincinnati, Pittsburgh and St. Louis in the west, and Boston, New York, Brooklyn and Philadelphia as the eastern half.

Still the chances are that there will be no change in the present system, and the Cleveland franchise be transferred. Meantime August has come, with the Eastern, New England and Western leagues and the Western association doing business at the old stand, with a promise of closing the season in good shape. There are less baseball wrecks this year in August than there has been at this season during the past four or five years.

John Clarkson, for whose release the Boston club paid the Chicago \$10,000 less than half a score of years ago, is "out of jail." When the Cleveland released this once great pitcher, the man himself recognized his doom as a ball player, and instead of fighting against fate he went off to the end of the world, where he will begin business at Lansing, Mich., this fall. He has saved a good deal from his salary and is not without capital to make his start in the commercial world.

The latest sensation in the baseball field was the series of three games between the New York and Boston in New York, which were witnessed by 28,000 people. In these games the New York team gave testimony that they are likely to be fighting it out at the finish with the present champions. It now looks as if the team and New York would be the contestants in the end.

THE WHEELING WORLD.

The "St. Louis Wonder," Jay Given Hagey, 23 years old, who is still in dresses, rode an exhibition half mile on a bicycle at a race meet recently.

The heaviest bicycle rider in the world is said to be Dr. Melton of Dublin, who weighs 275 pounds.

In his rule world's record at Waltham, Mass., Blais used a 16 pound race bicycle.

Russia is to be spared the blooming young woman, for the fair sex is not allowed to ride a bicycle in St. Petersburg.

George Banker says the Italian wheelmen will go to any length in order to win a race. In his opinion they are the trickiest wheelmen in the world.

W. C. Sanger recently won a trap, harness and horse at Toledo, one of the most valuable prizes taken into camp by a wheelman this year.

The American League of Racing Cyclists has been organized by the cracks of class B. Its objects are to see that proper quarters are supplied at meets, that the prizes are worth their face value and that the most managers do not impose on the men whom they have brought to their city by flowery promises.

Tyler, the New Bicycle King.

Julian P. Bliss did not long retain his laurels as king of wheelmen. His world's record of 2 minutes for a mile from standard start was soon lowered to 1 minute 57 seconds by Harry C. Tyler, and still more recently Tyler rode a mile from flying start on the famous Waltham track in 1 minute 53.4 seconds, thus reducing the

H. C. TYLER.

record made by Bliss a full second. He was regularly paid by tandems, and the record will without doubt be allowed by the League of American Wheelmen.

For four years past Tyler has been one of the fastest riders on the track in America. In 1891 he first attracted particular attention by making a new world's record of 1 minute 5 seconds for half a mile. In 1892 the world's mile record for a regulation track was 2 minutes and 11 seconds. Tyler went against the record at Springfield, Mass., and although he was very poorly paid he succeeded in lowering the mark to 2 minutes and 4 seconds. It is consequently no new sensation for Tyler to reign as the fastest wheelman in the world. His reign will probably be a short one this time, however, for John P. Bliss and other ambitious young men will not rest until the world's mark for a mile is made 1 minute 40 seconds. Tyler is a very successful racing manager. Last year he won prizes valued at \$5,000.

Yankers Ever the English Derby.

Ever since 1881, when Mr. Pierre Lorillard's Jockeys, the gallant son of Lexington, won the English Derby, England's classic turf event, many American horsemen have been ambitious to emulate Mr. Lorillard's example and take the English event into camp. Three American stables have been built in England, and the English Derby of 1896, James R. Keene's great horse, August Belmont and Colonel Payne of Ohio have all made entries, and Pierre Lorillard may try again.

Many horsemen believe that Mr. Whitney is a large owner in the game stable, although his name is not connected with it. Not many years ago James R. Keene's great horse, August Belmont and Colonel Payne of Ohio have all made entries, and Pierre Lorillard may try again.

RIGHT ARM PARALYZED!

Saved from St. Vitus Dance.

"Our daughter, Blanche, now fifteen years of age, had been terribly afflicted with St. Vitus dance, and lost the entire use of her right arm. We feared St. Vitus dance, and tried the best physicians, with no benefit. She has taken three bottles of Dr. Miles' Nervine and has gained 31 pounds. Her nervousness and symptoms of St. Vitus dance are entirely gone, she attends school regularly, and has recovered complete use of her arm, her appetite is splendid."

Duluth vs. Cloguet.

The Cloguet Base Ball club will arrive in Duluth tomorrow morning on a special excursion train and will play the Duluth club at the Superior Driving park in the afternoon. The Cloguet team is a strong one and puts up an excellent game of ball. It has won many hard fought battles this season and is determined to make the Duluth boys play ball. An interesting novelty of the game will be the playing of three "dusky red men" from the Chippewa reservation at Cloguet. They are fine specimens of manhood and by hard training have become experts at ball playing and their heavy batting and fleet running have always been features of the Cloguet's team work. The game will be called at 3:30 o'clock.

Supreme Court Decision Made a Few Days Ago Governs the American Loan & Trust Company Case.

No Receiver Can be Appointed When an Assignee Has Qualified and is in Possession.

Judge Lewis May Not Amend His Findings in the Morris Case—The Tower Brewery.

The petition of the International Trust company for the appointment of a receiver for the American Loan and Trust company and the sequestration of its property came up in the special term this morning and was continued two weeks. The petition will not now be allowed in all probability, as the supreme court a couple of days ago rendered a decision which will govern the question and which will prevent the court from entertaining such a petition.

The case in which the decision was rendered is that of Otto Walther, appellant, vs. Seven Corners bank et al., respondents, and C. F. Cardigan and Krika & Hanzel, appellants. The decision was announced by Justice Collins. His syllabus is as follows:

"In an action brought under the provisions of general statutes 1878, chapter 76, for the purpose of sequestrating the property of an insolvent corporation and enforcing the constitutional liability of its stockholders, the plaintiff is not entitled on the pleadings and as a matter of absolute right to have a receiver appointed when it appears that proceedings are pending under the insolvency law in which a receiver or assignee has been designated or selected who has qualified and under the supervision of the court had entered upon and is discharging the duties of his trust."

This is exactly what was sought by the International Trust company, so its petition will probably be dismissed.

Judges Lewis and Engen sat in special term this morning on the largest special calendar ever heard in the county. There were fifty-nine cases.

A motion to amend Judge Lewis' findings in the case of Michael Norrie against the city of Duluth was heard and submitted. The amendments to the findings are made with the intent of obtaining a wider ruling as to be all possible questions before the supreme court and get a decision that will preclude the necessity of any more litigation in the premises.

Judge Lewis made his decision adversely to the issuance of the water bonds of the city of Duluth in the election of 1891. The amended ruling also that owing to the lapse of time between the election and the issuance of the bonds the council lost all authority. Judge Lewis said that he could not see that it was the duty of the court to pass upon that question, so it is not unlikely that the decision will be motion.

The assignee of the Iron Range Brewing company asked the court to confirm the sale of the brewery at Tower to Frank Best, of Superior, for \$3050. F. M. Graft, who is a stockholder, objected to the sale, as he said that the place exclusive of the beer in stock is worth \$12,000, while he became a stockholder as the purchase price. Max Shapiro made affidavit to the effect that there was a combination at the auction sale to keep the price down, and that it was worth much more. The case was continued a week to submit more proof.

The application of the assignee of the Minnesota Blast Furnace company for extra compensation of \$1000 for services in carrying the estate through the panic of last summer was heard and submitted. W. W. Hubbard has filed his bill to the damage suit of Attorney McKeon. He sets up a counter claim of \$1305 for damages resulting from the municipal court suit. A deceiver to the center claim is being heard this afternoon.

Think She Was Concerned. Some days ago a woman giving the name of Maud Arlington was arrested at Stillwater for passing a forged check. Chief Armstrong, where the case was matter, thought that the woman might be one of a gang that worked Duluth and Superior about June 16. He accordingly sent a forged check on "Merrill & Ring" for \$11 to the chief of police at Stillwater. This morning a reply came stating that the Stillwater authorities think their prisoner was mixed up in the Duluth business.

Three Bears Shot. Jared Knight, a 15-year-old boy who works for McMillen & Co., went home last evening about 5 o'clock and was greatly alarmed to see two bear cubs near his home at Sixteenth avenue east and Sixth street. He got a gun and shot both of them. They weighed about fifty pounds apiece. A hunter shot the mother not far from the same place.

Another Contest in Sight. Tom Murray, of Grand Rapids, has written Frank Hayes asking for a match with Jack Curtis. It was informed that if he would bet \$100 besides the gate receipts it could be arranged. Murray wired his acceptance and said his representative would be here today. Frank Hayes says Curtis can whip Murray easily.

Killed a Bear.

Master John McGregg, of 325 East First street, has the proud distinction of having killed a 250 pound bear yesterday, back of Woodland Park. With his two younger brothers he started out early in the morning. He encountered the bear in the morning. The younger boys were terribly frightened but Master John played away at the beast. The shot took effect but did not kill the animal and he started for the boys. Another shot however, dropped him. There was not a broader young man in Duluth than Master John when he finished him.

Corse Payton Company.

The Temple will be occupied all next week by Corse Payton and his excellent company in a repertoire of comedies and dramas at popular prices, opening in Harley Campbell's masterpiece in five acts entitled "The Galley Slave," introducing new songs, dances, medleys and specialties. Ladies will be admitted free Monday evening when accompanied by a paid 30-cent ticket if purchased before 6 p. m. of that day. Seats now on sale. Only matinee Wednesday afternoon.

Was Well Known Here.

Hon. W. F. Swift died at his home in Ishpeming, Mich., on Thursday, after a lingering illness. The deceased not only was a heavy holder in the Zenith property, but was well known on the Vermilion range and to iron men generally.

Low Grade Wheat.

The sample tables were placed in the board of trade yesterday and were used quite freely this morning. It is more than likely that a large quantity of low grade wheat will come to Duluth in this year's crop and that more of it will be handled here than ever before. The mills will buy quite heavily and there will be a good demand for it.

Will Prosecute Dairymen.

E. J. Graham, deputy state dairy commissioner, has been in the city several days testing the milk of the local dairies as well as that shipped in. He thinks of introducing the test in the local health office. Before he goes back he will prosecute several dairymen who have sold milk not up to the standard.

THE WORLD OF LABOR

Everything Quiet in the Field of Organized Labor in Duluth During the Past Week.

Preparations for the Labor Day Parade and Ball Are Being Carried Forward Very Rapidly.

A Special Commission Appointed by Secretary Carlisle to Make an Inquiry Regarding Immigrant Labor.

Everything has been quiet in the field of organized labor this week. Labor day draws on apace and preparations for that occasion are occupying the attention of the Trades assembly and the unions. A contract has been entered into with the street railway company for the use of the Pavilion. The use of the building has been conceded to the Trades assembly until 6 o'clock p. m. Manager McCaffrey will arrange a special program of merit and interest that he hopes will induce the bulk of the celebrators to spend the evening there also.

During the day there will be racing and all manner of sports on the ground adjacent to the Pavilion. Inside, the gay old boys with their ladies fair, will be in the merry dance. The speaking will mostly take place under an awning on the outside of the building.

The Labor day parties will be the best this year that ever has taken place. Since this time last year eight or nine unions have affiliated with the assembly, and now the unions represent five or six thousand men. Permission has been granted the merchants to have floats in the parade, and a large number of them will take advantage of that permission. A number of the unions will also undoubtedly be represented by special floats.

The orator of the day has not yet been positively settled upon. Eugene V. Debs has been solicited and there are strong hopes he will accept if he has health permits. W. W. Erwin, of St. Paul, wrote the committee a nice letter, saying that he would accept the invitation to deliver an address, but for the fact that he was busy engaged in preparing the defense of the A. R. U. boys, who were arrested for contempt of court.

The union men have quit matters pertaining to the organization of their particular unions and have, as individuals, launched boldly into politics. Clubs are being formed and meetings being held every night. Much interest in the coming election is being shown.

IMMIGRANT LABOR.

A Special Commission to Make a Timely Investigation.

The following circular is being sent out by Secretary McSweeney as rapidly as he can obtain the names and addresses of secretaries of labor organizations:

The undersigned have been constituted by Hon. John G. Carlisle, secretary of the United States department of labor, to investigate and report to him—

"First—What changes, if any, in the rules and regulations now in force are necessary in order to secure a more efficient execution of existing laws relating to immigration and laws prohibiting the importation of alien laborers under contract."

"Second—Whether said laws are defective in any particular and what practical difficulties, if any, have been encountered in their execution."

"Third—What effect, if any, immigration has had upon the wages of labor or opportunities for employment in this country, and whether or not the existing industrial condition of the country is attributable in any degree to the influx of labor from abroad."

"Fourth—Whether any measures, and, if so, what, can be adopted under existing legislation to discourage the concentration of immigrant laborers in particular localities and to secure a better distribution of immigrants whose admission to the country is not prohibited by law."

"Fifth—Whether the padrone system exists in this country, and, if so, to what extent and among what classes of immigrants and what measures can be taken under existing laws to break it up and protect American laborers against its evil effects upon wages and at the same time improve the social and economic condition of the immigrants."

The commissioners have also been directed to secure and report such information as will enable them to make a practical way the most effective manner for the enforcement of the immigration and contract labor laws according to their true intent and purpose and to suggest such amendments to existing laws as may be necessary in order to adapt them to existing conditions.

The honorable secretary of the treasury is deeply interested in learning exactly the views entertained by the workmen in their trade with reference to all these matters, particularly so far as they bear upon the industry in which they are engaged and cognate industries concerning which you have incidental knowledge. We believe that the most effective aid can be rendered by you by bringing to light and presenting in a practical way the facts and circumstances bearing upon the work of your craft and the difficulties with which you have to contend, and by suggesting and devising means for supplying remedies for any evils that may exist.

We shall be greatly obliged to you if, after due consideration on your part of the subject matter herewith presented, you will promptly collect, formulate and transmit to your earliest convenience to the immigration investigation commission, addressed in Ellis Island, N. Y., all the facts ascertainable by you bearing upon any or all of the heads of investigation and inquiry above referred to, and especially upon the specific points which relate to the trade or industry in which you are employed and concerning which your knowledge and testimony would be of special value.

We especially desire to know the rates of wages paid in your trade during the last 10 years, also, for the purposes of comparison, the rates that have for the same period been paid or offered to or accepted by competing alien laborers, localizing the same geographically, truthfully asserting that the influx of alien immigrants has influenced the wages obtainable by American mechanics, artisans and laborers, and, if so, to what extent.

The commission or some of its members expect to visit your section of the country and to personally confer with you in order, by personal examination and inquiry, to receive the benefit of your practical knowledge of the matters upon which they will be required to report.

The personal and analysis, when received, of the information you may transmit will suggest other specific topics of investigation and inquiry and lead to further correspondence and to personal visitation by us if deemed necessary to make the fund of information upon which the report will be based exhaustive and complete.

Trusting that we may receive from you

spouse, wife, respectfully, yours,
HERMAN STAMP,
DULUTH, MINN.
EDWARD F. McSWEENEY,
DULUTH, MINN.

Herman Stamp is superintendent of immigration, Dr. Senner is commissioner of immigration at the port of New York, and Edward F. McSweeney is assistant commissioner, port of New York.

A circular has also been sent to the governors of the various states asking their co-operation. After setting forth the main points, as given in the circular copied above, the communication addressed to the governors says:

"It has been pertinently suggested for consideration whether a solution of the immigration problem might not be found in the distribution of immigrants throughout the United States by making it possible for them to be supplied with information as to the need, or lack of need, of labor in various sections of the country, so as to prevent their ignorantly going to places where the labor market is already congested, and to enable them, by timely advice and suggestions, to proceed to points where labor is in demand. For, concededly, it is not enough, to exclude undesirable immigrants. Even desirable immigrants should be located, if possible, in those parts of the country where they are most needed, and where, at the same time, they can best prosper, so that at the same time the problem seems to be to induce aliens who come here for the purpose of settlement, and who are not within the excluding terms of the law, to settle only in those localities where, in all reasonable probability, they will secure to themselves and our country the most lasting benefit and advantage. To this end it is extremely desirable that the commission receive all possible assistance and co-operation at the hands of the various state boards of immigration."

"We therefore call your attention to the scope of the work intrusted to us, and to ask that you will carefully consider the matter and give us your valuable aid in procuring and having suitably prepared and transmitted to us all the information obtainable in your state under the various heads mentioned, and particularly with reference to whether, as to each particular section of your state, there is an existing demand for labor which is unsupplied, or whether the labor market is congested or oversupplied, and in what particular branches of labor there is an over-supply or lack of supply of employees."

"The orator of the day has not yet been positively settled upon. Eugene V. Debs has been solicited and there are strong hopes he will accept if he has health permits. W. W. Erwin, of St. Paul, wrote the committee a nice letter, saying that he would accept the invitation to deliver an address, but for the fact that he was busy engaged in preparing the defense of the A. EDWARD F. McSWEENEY,
DULUTH, MINN.

Herman Stamp is superintendent of immigration, Dr. Senner is commissioner of immigration at the port of New York, and Edward F. McSweeney is assistant commissioner, port of New York.

A circular has also been sent to the governors of the various states asking their co-operation. After setting forth the main points, as given in the circular copied above, the communication addressed to the governors says:

"It has been pertinently suggested for consideration whether a solution of the immigration problem might not be found in the distribution of immigrants throughout the United States by making it possible for them to be supplied with information as to the need, or lack of need, of labor in various sections of the country, so as to prevent their ignorantly going to places where the labor market is already congested, and to enable them, by timely advice and suggestions, to proceed to points where labor is in demand. For, concededly, it is not enough, to exclude undesirable immigrants. Even desirable immigrants should be located, if possible, in those parts of the country where they are most needed, and where, at the same time, they can best prosper, so that at the same time the problem seems to be to induce aliens who come here for the purpose of settlement, and who are not within the excluding terms of the law, to settle only in those localities where, in all reasonable probability, they will secure to themselves and our country the most lasting benefit and advantage. To this end it is extremely desirable that the commission receive all possible assistance and co-operation at the hands of the various state boards of immigration."

"We therefore call your attention to the scope of the work intrusted to us, and to ask that you will carefully consider the matter and give us your valuable aid in procuring and having suitably prepared and transmitted to us all the information obtainable in your state under the various heads mentioned, and particularly with reference to whether, as to each particular section of your state, there is an existing demand for labor which is unsupplied, or whether the labor market is congested or oversupplied, and in what particular branches of labor there is an over-supply or lack of supply of employees."

"The orator of the day has not yet been positively settled upon. Eugene V. Debs has been solicited and there are strong hopes he will accept if he has health permits. W. W. Erwin, of St. Paul, wrote the committee a nice letter, saying that he would accept the invitation to deliver an address, but for the fact that he was busy engaged in preparing the defense of the A. R. U. boys, who were arrested for contempt of court."

The union men have quit matters pertaining to the organization of their particular unions and have, as individuals, launched boldly into politics. Clubs are being formed and meetings being held every night. Much interest in the coming election is being shown.

The undersigned have been constituted by Hon. John G. Carlisle, secretary of the United States department of labor, to investigate and report to him—

"First—What changes, if any, in the rules and regulations now in force are necessary in order to secure a more efficient execution of existing laws relating to immigration and laws prohibiting the importation of alien laborers under contract."

"Second—Whether said laws are defective in any particular and what practical difficulties, if any, have been encountered in their execution."

"Third—What effect, if any, immigration has had upon the wages of labor or opportunities for employment in this country, and whether or not the existing industrial condition of the country is attributable in any degree to the influx of labor from abroad."

"Fourth—Whether any measures, and, if so, what, can be adopted under existing legislation to discourage the concentration of immigrant laborers in particular localities and to secure a better distribution of immigrants whose admission to the country is not prohibited by law."

"Fifth—Whether the padrone system exists in this country, and, if so, to what extent and among what classes of immigrants and what measures can be taken under existing laws to break it up and protect American laborers against its evil effects upon wages and at the same time improve the social and economic condition of the immigrants."

The commissioners have also been directed to secure and report such information as will enable them to make a practical way the most effective manner for the enforcement of the immigration and contract labor laws according to their true intent and purpose and to suggest such amendments to existing laws as may be necessary in order to adapt them to existing conditions.

The honorable secretary of the treasury is deeply interested in learning exactly the views entertained by the workmen in their trade with reference to all these matters, particularly so far as they bear upon the industry in which they are engaged and cognate industries concerning which you have incidental knowledge. We believe that the most effective aid can be rendered by you by bringing to light and presenting in a practical way the facts and circumstances bearing upon the work of your craft and the difficulties with which you have to contend, and by suggesting and devising means for supplying remedies for any evils that may exist.

We shall be greatly obliged to you if, after due consideration on your part of the subject matter herewith presented, you will promptly collect, formulate and transmit to your earliest convenience to the immigration investigation commission, addressed in Ellis Island, N. Y., all the facts ascertainable by you bearing upon any or all of the heads of investigation and inquiry above referred to, and especially upon the specific points which relate to the trade or industry in which you are employed and concerning which your knowledge and testimony would be of special value.

We especially desire to know the rates of wages paid in your trade during the last 10 years, also, for the purposes of comparison, the rates that have for the same period been paid or offered to or accepted by competing alien laborers, localizing the same geographically, truthfully asserting that the influx of alien immigrants has influenced the wages obtainable by American mechanics, artisans and laborers, and, if so, to what extent.

The commission or some of its members expect to visit your section of the country and to personally confer with you in order, by personal examination and inquiry, to receive the benefit of your practical knowledge of the matters upon which they will be required to report.

The personal and analysis, when received, of the information you may transmit will suggest other specific topics of investigation and inquiry and lead to further correspondence and to personal visitation by us if deemed necessary to make the fund of information upon which the report will be based exhaustive and complete.

Trusting that we may receive from you

spouse, wife, respectfully, yours,
HERMAN STAMP,
DULUTH, MINN.

critical case. The objections are numerous denying to chancery the right to issue an injunction when the state furnishes ample means for the prosecution and punishment of wrongdoers, since chancery only has jurisdiction where the law provides no remedy for the wrong or where the legal remedy is inadequate. — Reinhardt Feysenbernd in Chicago Record.

Strikers Guarded Property.
The following letter was received by a Chicago paper from a clergyman whose charge is in the center of the scene of rioting at Edison during the strike:

Whatever wrongs may have been committed or mistakes made, I am convinced that the strikers did not burn the property of the railroads. The railway union has an organization 280 strong at Edison and holds its meetings in a hall corner of Fifty-first street and Roman avenue. I have attended several of their meetings and heard their instructions to keep away from the railroad property, only to protect it from marauders.

The evening of July 6, while the fire was consuming the property of the railroads, a meeting of the strikers was called, and during themselves as best they could they guarded the Grand Trunk shops and Chicago, Boston and Liverpool car works, on whose tracks were at least 2,000 cars, many of them loaded. During the night the hoodlums came from the scene of the fire on a hand car for the purpose, no doubt, of burning the property and were driven back by the strikers. They continued on guard till the troops arrived Saturday evening. Many of them have from time to time offered to protect the companies' property here and are as anxious to see it protected as are any of the officials of the road.

Merely a Coincidence.
An exchange wants to know "if it was merely a coincidence that the great railway strike, like that of 1877, came in the year following a great World's fair? The strike of 1877 began on the great railroads which were the chief arteries to the Centennial exposition, celebrating an event that should have aroused the most intensely patriotic feelings. The strike of 1894 followed at about the same distance of time after the Columbian exposition."

RARE ZOOLOGICAL SPECIMENS.

Wild Beasts from the remotest parts of the World—Two Giant Antelopes.

Of the Barmen & Bailey greatest show on earth, which comes here on Saturday next, it is said that it exhibits more foreign rare animals and birds than any traveling exhibition in the world, and aside from the attractions of the fine circus, double museum and hippodrome and the splendor of the aerial display, it is worth many times the admission fee to the show to inspect the zoological wonders.

Using the most modest language possible, it is only truth to say that it is the best and most varied collection of wild, rare and curious animals ever seen in the city. The animals of the ruminant tribe are particularly rare, and here are splendid specimens of their kind. There is a rare species of the gnu, or horned horse, from the mountains of Africa, and different in many particulars from any lowland gnu usually seen in captivity, being piebald for one thing, while the species ordinarily seen is black. A pair of uncommonly fine African porcupines occupy one cage and an enormous war hog from Abyssinia another. Rare specimens of Alpine, African and Asian antelopes are shown, among them an eland, an oryx, a nygaur and a springbok.

The animals of the cat kind are, without question, the finest, whether taken singly or collectively, of any in any zoological garden in the world. There is one cage of five grand, full-grown lions; another contains a lioness, and her family of four young, wicked-looking cubs; another has three baby panthers; another an infant kangaroo, and so on, forming a veritable zoologic nursery of most curious babies. There is another cage of three enormous tigers—one of them is said to be the largest in captivity, and a lordly lion, he, too. The leopards are beautiful specimens of their kind—one being black—and there is another cage of ferocious panthers. There is a cage of laughing hyenas and another of Siberian wolves. There are a number of the largest bears in captivity, from the Rocky mountains silver tipped and black, and a pair of zebra, gaunt, restless polar species. The only performing hippopotamus in the world is there, weighing over two tons.

There are the only ostriches on exhibition in this country and a two-horned rhinoceros; the only genuine zebra ever imported to America, a number of quagga, which number the last of the breed of their family and similarly striped; a pair of white Bactrian camels, ten dromedaries and fifteen elephants, besides the money bag of 150 members. These are but a few of the beasts in the show, but to enumerate them all is as impossible as is unnecessary. To all of these have just been added two huge gorillas, male and female, the largest known species and the only ones ever in captivity. Both remarkable animals, the rarest on earth, more nearly resembling man in every way than any other known. Their names are now known all over the world from being confined in Central Park all last winter, through the generosity of J. A. Bailey, and when they were visited by scientists, naturalists and students from everywhere. Chiko and Johanna should be seen by every one.

THE TOWER TOO FAR AWAY.
Mining Temporarily Delayed at the Hale Mine.

But Now Resumed.
Mining operations at the Hale were delayed by an unfortunate oversight in placing the big towers, says the Mesaba Range. The main tower was placed so far away from the pit that the slack in the cable caused the dipper to interfere with the dump over the ore cars. This defect has been remedied by moving the tower nearer to the pit. This raises the cable and allows the dipper to clear the dump. It is probable that loading of ore will be commenced by the last of the week or the first of next.

A Sensible Conclusion.
FALL RIVER, Mass., Aug. 18.—The Fall River weavers last night voted 798 to 103 not to strike. The sentiment was that it was better to take a vacation until the market should rise and the large amount of cloth on hand could be disposed of.
